A Perfect Shower with a Smart Gas Water Heater

Why Choose a Smart Gas Water Heater?

Programme your preferred temperature via the iAppliances app

Monitor your water and gas consumption usage

Receive notifications when the Gas Water Heater is turned on

Gas is Better

Greater Savings
In comparison to an electric storage water heater, a household can save \$1200 by using a gas water heater.

Source: The computed savings are based on a study by NEA.

Carbon Emissions Savings
Using a gas water heater saves an approximately 80% reduction in carbon emissions compared to the electric storage water heater.

Source: Based on a study conducted by National University of Singapore (NUS) Prof Lee Siew Eng.

Smart Function
Revolutionary iCloud-powered smart system that optimises bathing experience.

Safe & Reliable
Designed with built-in safety features and tested to EN26 standard by TÜV SÜD PSB Singapore.

Continuous Hot Water
On-demand and continuous hot water at your preferred temperature.

Greater Efficiency
One heater is all you need to supply hot water to multiple outlets.

Easy & Convenient
Hassle-free operation with LED display panel.

Small & Compact
Requires minimal storage space and fits in a kitchen or service yard.

macro

MA-10WFE

- Hot water supply to up to 2 points of usage
- Digital temperature control with LCD screen
