# RECONFIGURABLE AND REUSABLE MODULAR OFFICE WALL SOLUTIONS

**EverBlock®** & **EverPanel®** are used by corporations both large and small to create beautiful and unique office spaces, temporary walls, partitions, room dividers, cubicles and modular furniture.

**EverBlock** ✕ **EverPanel®**
MODULAR WALL SYSTEM

# So You Need An Office Wall Or Divider?
## Choose Which Wall System Is Best For Your Needs.

**EverBlock** modular wall solutions are fully **customizable, 100% reusable and reconfigurable**, and can meet any company or brand's **style, colors and culture.** Use **EverBlock®** and **EverPanel®** to delineate offices, build temporary walls, divide spaces, create conference rooms and deploy instant offices. Design inviting locations for your employees to meet, work, brainstorm and collaborate.

## COLORFUL MODULAR BUILDING BLOCKS TO BUILD WALLS... AND MORE

Offices interested in building temporary walls that add an architectural element and contributes to the spirit of innovation will love incorporating **EverBlock** building blocks into the interior design of their office space. With **EverBlock**, clients can create all types of accent walls, portable office dividers, branded modular walls, stylish cubicles, pony walls and much more.

## SOPHISTICATED MODULAR WALL PANELS

The **EverPanel** instant wall system is flexible, allowing you to build all types of floor plans, economically divide spaces and define office areas. Quickly build offices, conference rooms, break rooms, visitor areas, branded walls or any type of partition required, using a series of lightweight, durable fiberglass composite panels that connect with adjacent panels using a proprietary lug and connector system.

# EVERBLOCK®

Varying size building blocks allow for custom interior walls to meet any spacial needs and blocks are available in 16 exciting colors to match your design goals. Build accent walls and office dividers in any height, width, thickness, color or shape.

**EverBlock** allows clients to create beautiful office, residential and factory dividers, desks, modular furniture and furnishings that add an architectural element that contributes to the spirit of innovation.

Add semi-translucent blocks to run **LED** lighting strips within to create illumination or to allow diffused light to enter.

Reconfigure walls as needs change and repurpose building blocks into a multitude of other objects; from desks to seating, and from cubicle walls to stimulating decor.

# EVERPANEL®

With 18 panel size options, window panels and door panels, various panels can be combined and connected to build permanent or temporary walls that meet a space's specific needs.                                          .

**EverPanel** allows clients to run electrical and power cables within and between panels in any direction, providing a clean and connected workspace. Add doors, windows and openings as needed. Adhere standard adhesive backed wallpaper to your walls to customize your space and walls in an instant.

Installation is quick and simple, there are no tools required for assembly. Reconfigure walls as needed. Sections are easy to transport, install, remove and store compactly. Build temporary offices, walls and partitions as needed or permanent walls as your company grows.
