## PRINTABLE RING SIZING GUIDE

This guide is aimed to help you decide which ring size to choose.

For increased accuracy, use a ring in a similar style and with a similar band width to the ring you intend to buy.

### STEP 1

Print this document out to 100% by ensuring page scaling is set to 'none' on the print dialogue box on PC or by selecting the print at 'actual size' option on Mac. This guide must be printed on a full A4 page. When printed, check the line below - it should measure exactly 30mm.

### STEP 2

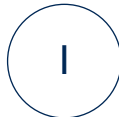

Place your ring band on the chart below and match the inside edge of the ring to the nearest size circle.

### STEP 3

The letter in the circle that best fits your ring is your ring size. If it falls somewhere in between two sizes then you should opt for the larger size.
