### **L/R Deletion of Paired Memory**

Click 6 times either of the earbud L or R side when the earbuds connected to phone on working mode to finish the deletion of paired memory . This operation can help you to connect another new Bluetooth device compulsorily .

### **EASY PAIRING**

- 1.- Put the earbuds into the charging box to restart, the red light is activated.
- 2.- Take out the earbuds from the charging box in the same time. The red and white lights are flashing quickly, after that the light of one earpiece will be off. And the light of the other earpiece will be flashing in red and white slowly. It's means the earbuds are working together.
- 3.- Open the Bluetooth of the phone and search for pairing name "Cubitt Earbuds" for pairing.
- 4.- After use, please put it back to the charging box , it will be auto power-off accordingly.
- 5.- when use, just pick up it out from the charging box and it will be auto pairing use.
