

# STINGRAY® 6XL

132 WATT LED HIGH BAY FIXTURE

Proudly made in the USA of 20 gauge American Steel, the Stingray® 6XL is a robust light fixture that will last a lifetime. With a simple two screw swing away door, wiring and installation is quick and easy. The Stingray® LED High Bay does not require a ballast or external driver to run the fixture, making it virtually maintenance free. The included super durable aluminum and polycarbonate bulbs are instant on and flicker free. PrimeLights warranties every fixture and every bulb for 5 years. The Stingray® LED High Bay is one of the brightest, longest lasting, easiest to install fixtures on the market! Give us a call for a free lighting layout or bulk pricing.
