

STEPHANIE NG DESIGN

CORPORATE PROFILE

LIGHTING DESIGN & CONSULTANCY

- Decorative Lighting (Interior & Outdoor)
- Original Design Collection
- Architectural Lighting
- Landscape Lighting
- Façade Lighting
- Production
- Fit- Outs

Established in 2013, we offer a range of Original Designs from our own Collection and create Bespoke Designs to clients' specifications. We seek to have an early design input to explore all possible lighting opportunities. At that stage, design possibilities are vast and relevant implications can be easily, economically and sustainably integrated into the project.

We strive to provide customers with the best lighting solutions and address each client's specific lighting needs.

We use a combination of colors, texture, forms and loves to transform unique materials to make the ordinary special, while retaining and underlying signature of natural elements. Our team believes in sustainable design - making products that retain their functional edge and work harmoniously in relation to a space or system.

SCOPE OF SERVICES

We develop our designs through the following:-

Concept Design

We will present a design intent document based on the needs and space which will form the basis for the design development and detailed documentation stages of design. Any concerns or queries on the philosophy of the lighting design will be addressed and attended at this stage, until an agreed design concept is established.

Design Development

All aspects of the lighting design will be developed and reviewed. We will consider the economics of energy consumption and maintenance for the installation and ensure these issues are addressed without compromising the design intent.

Manufacturing

We provide shop drawings before manufacturing. We work with a select panel of manufacturers that we have stringently selected to fabricate a myriad of materials and processes from Australia, Malaysia and China. The manufacturing process is strictly under our guidance and we frequently supervise the process.

Installation Fit-Out

We work with leading, trustworthy electricians in the industry to perform the installations. We frequently supervise the installation process to ensure that it is proper and specific to the approved locations.

SCOPE OF SERVICES

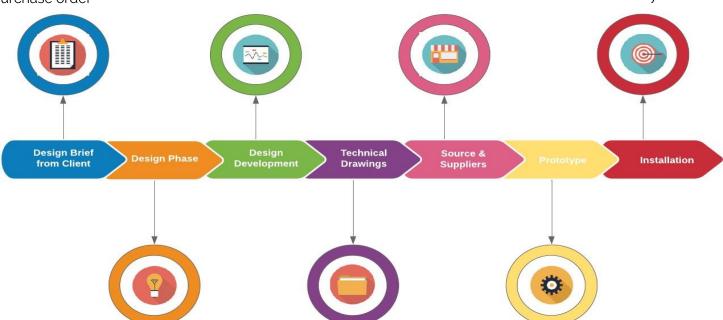

- Bespoke Design
- Design Conceptualisation
 - Visual Render
 - CAD Design Drawing
- Fabrication & Quality Control
- Lighting Consultancy
- DIALUX Simulation / Images
- Electrical Consumption Calculation
 - Design Development
- M&E Lighting Layout and Circuit Grouping
 - Project Coordination and Planning
 - Tender documents
 - Design Consultancy
 - Materials and Production Advisory
 - Interior Styling
 - Luminaire Specification

CUSTOMER JOURNEY

- Moodboard & summary of design brief
- Quotation
- Confirmation of proposal
 - & Purchase order

- Design Refinement & Approval with sign off on aesthetic
- Quotation and confirm supplier
- Delivery to client & installation
- Testing and commissioning
- Warranty

 Presentation for sketching & conceptualisation

- Material & design specifications
- Progressive Payment (30%)
- Approval with sign off on design freeze
- Testing Durability & ergonomics
- Development (internal)
- Confirm prototype
- Present to client
- Approval with sign off

TYPES OF PROJECTS

- Residential
- Retail Boutiques, Shopping Mall Outlets
- Commercial Office, Serviced Suites, Common Areas, Healthcare, Show Gallery
- Hospitality F&B Outlets, Hotels, Front of House, Lounge
 - Bespoke Installations Art, Kinetic, Dynamic Lighting

A multi-award winning lighting and furniture designer with a Bachelor of Design degree in Industrial Design from Swinburne University of Technology, Melbourne, Australia and has subsequently worked both in Australia and Malaysia.

She loves working with colour, form, texture and unique tactile materials with a focus on versatility to create innovative, quality products. Stephanie Ng Design was set-up in 2013 while still in Melbourne and since then has become well-known worldwide for its exclusive Original Designs, Bespoke Installations and Lighting Solutions.

Awards to her credit include receiving the Australian International Furniture Fair (AIFF) Award for Best Concept in 2013 and the Malaysia International Furniture Fair's annual Furniture Design Competition (MIFF FDC) Award in 2015. Malaysia Good Design Mark (MGDM). Not forgetting, being selected to represent her country at Expo Milano 2015 where Malaysia showcases the "Best of" with a Kinetic Light Installation.

Her most recent award is by Reka Interiors Exhibition (RIX 2019) for a Light Art Sculpture; a showcase to reassert that ambience can be created not just by your typical Chandelier or Lamp, but can come in any Art form. Stephanie's designs have also been featured in international exhibitions, magazines and newspapers around the world. Each year, she unveils new work at selected exhibitions across the globe while reinforcing her brand as **Ambience Artists**.
