

# GELATIN PRINTS

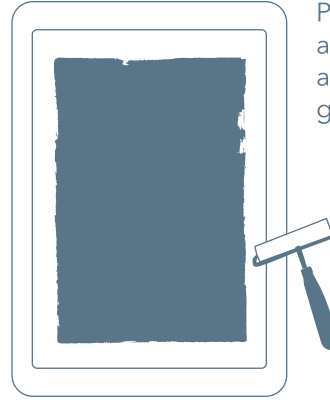

BRING THE OUTDOORS IN

## STEP 1

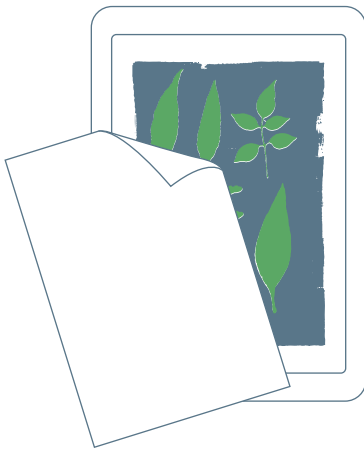

Bring water to a boil. Slowly whisk in gelatin. Once dissolved, pour mixture into cookie sheet. Let it cool and set for a few hours or overnight.

## STEP 2

Pour printmaking ink onto a plate. Using a brayer, apply a thin layer of ink to gelatin.

## STEP 3

Add your leaves. Then place your paper on top and rub or use a clean brayer to roll over the entire paper.

Remove the paper. This is your first print!

## STEP 4

Remove the leaves, carefully. Place a new paper onto the gelatin and rub. Remove and you have your second print!

Gelatin can be reused.

## WHAT YOU WILL NEED

- 8 gelatin packets (such as Knox brand)
- 5 cups water
- 9"x13" cookie sheet
- Printmaking ink
- Printmaking brayer
- Paper
- Leaves
