

# Women's Bracelet Size Guide

Measuring your wrist is the best way to determine your correct bracelet, bangle or cuff size.

Before using the ruler to find your fit, make sure this PDF guide is printed on US Letter size paper (8.5 x 11") and scaled to 100%. To check your accuracy, position a credit card on the line below. If your credit card matches the length, the guide is printed to the correct size.

## Measure your wrist with our John Atencio ruler.

1. Cut out the ruler. Make a small slit on the horizontal dotted line on the left end of the ruler.
2. Wrap the ruler around the circumference of your wrist with the numbered side facing out.
3. Slip the end of the sizer through the slit and pull until the ruler is flush against your skin.
4. Find your measurement. The number that lines up at the edge of the opening is your wrist size.

Compare your wrist measurement with the chart below to find your John Atencio bracelet size. If you are between sizes, we suggest you opt for the larger size. For custom sizes beyond the Small-Large range listed on our website, please contact Customer Service at 800-219-0276.
