## **Product Features**

- Lure sprays assist pest control operations by attracting possums, rodents, mustelids and feral cats and to traps and bait stations.
- Trials by Lincoln University show a significant increase in possum interaction with Connovation Lure-It is used.
- Possum Lures can be purchased in transparent form, or with white blazer added. The white blaze provides a visual lure as well as the olfactory one.
- The white blaze outlasts flour blazes and other lurers in adverse weather conditions, and is not eaten by rodents - important in possum control operations.
- Used by professional pest controllers, the Department of Conservation and other conservationists.
- Suitable for all trapping and baiting operations.

## **Product Forms**

- Lure-It transparent.
- Lure-It with Blaze.
- Available in 400mls aerosol cans.
