Native Instruments Production Software

Total creative freedom for those who need it all, with flagship synths, sampled instruments, effects, and groundbreaking orchestral libraries – almost everything Native Instruments have ever released. Including CREMONA QUARTET, GUITAR RIG 6 PRO, ARKHIS, MYSTERIA, PHARLIGHT, STRAYLIGHT, NOIRE, and many more.

Builder platforms can be used to create just about any instrument you can imagine. KONTAKT 6 powers advanced sampling and instruments from Native and hundreds of leading manufacturers. REAKTOR 6 takes care of the synthesis side of things, with a flexible modular environment for building synths, effects, and more. If you don't want to dive in too deep, both platforms include comprehensive libraries full of sampled instruments and synthesizers for making music straight away.

Komplete 13 Production Software offers a versatile gathering of production tools from Native Instruments professional-level plug-in suite. For more detailed information about the individual elements included please visit allegrosupplies.com.au

Ableton Live

Ableton Live 11 Suite gives you a fast, flexible, and fluid music production software or digital audio workstation (DAW) for music creation and performance. Boasting a number of effects, instruments, sounds, and tools to make any kind of music!

With Live's linear Arrangement View, you can sequence your music. Or, use Session View to improvise and try a range of ideas without being stuck to a timeline. Change the tempo and timing of your audio in real-time without having to stop the music with Live 11's warping. As well as record MIDI, real-world instruments, vocals, and more using Live 11's abundance of creative features. So you can perfect your performance, spark new ideas, and turn spontaneous moments into music.

What's more, Live 11 comes complete with a rich range of instruments and effects to get started. But you can always shape them into something new and original. More than anything, because of Live 11's real-time ability, its perfect for live performances and hands on play. Finally, you can always get your hands on the Ableton Push which is specifically built for Live 11 for an even more hands on approach.

Lifetime Warranty

- Manhasset desks are both durable and extremely lightweight. Less weight in the desk means it can hold a greater weight of sheet music.
- Manhasset uses a metal base capable of withstanding over 180 kilograms of pressure.
- All riveted brackets and weld joints are fixed with precision and detail.
- No plastic bushings or connection points on base or shaft.
- Manhasset uses durable, high quality chroming on the upper shaft - more expensive to produce, but incredibly resistant to abrasion.

MANHASSET[®] is the number one choice of schools, symphonies and orchestras worldwide.

First Place for Jazz - Jazz Ensemble Curriculum

First Place for Jazz is a comprehensive jazz ensemble curriculum. The book is divided into three sections by key: Concert Bb, F, and Eb. Within each section the major, Mixolydian, Dorian, and blues scales and correlated chords of that key are introduced through Jazz Starters, Rhythm Section Spotlights, and Rhythm Sectionals. These enrichments prepare students to play each of the 12 original grade 1-2 Jazz Ensemble Charts and Lead Sheets. Suitable for group or individual instruction.

String Basics: Steps to Success for String Orchestra

String Basics is a comprehensive method for beginning string classes. Utilising technical exercises, music from around the world, classical themes by the masters and original compositions, students will learn to play their string instruments in an orchestra. Step-by-step sequences of instruction will prove invaluable as students learn to hold their instrument and bow, finger new notes, count different rhythms, read music notation and more.

The L80 Low Volume cymbal is perfect for drummers looking for a quieter sound without losing the authentic feel of a Zildjian cymbal. It is ideal for practice rooms, drum lesson rooms, low volume gigs or any other situation where reduced volumes are required.

Through tireless research and development by the Zildjian Sound Lab, a specialized pattern was achieved to deliver the best of both worlds: musical sound and lower volume.

This state-of-the-art pattern is combined with a proprietary alloy and then given a unique matte finish that enables L80 Low Volume cymbals to be up to 80% quieter than a traditional cymbal.

Low Volume Cymbal Sets

The three sets that are available now range in size and purpose. Notice the differences in sizes in the configurations. If you are sure you can resist hitting your regular crashes, then the LV38 is the perfect set to practice your beats and time.

- 18" L80 Low Volume Crash Ride

Zildjian's one-of-a-kind L80 Low Volume cymbals are up to 80% quieter than traditional cymbals without losing the authentic Zildjian feel. They are ideal for practice spaces, drum lessons, low volume gigs or anywhere you can't play loud!

Zildjian L80 Low Volume cymbals are real cymbals that play at reduced volume - up to 80% less volume, thanks to a unique perforated pattern. That means you can play them exactly how you play any other cymbal, using any stick, mallet, or technique. The full decay is there, and they respond to your every playing nuance. Many Sweetwater drummers use L80 Low Volume cymbals with their acoustic kits for reduced volume in pit work or worship bands. And of course, they're the obvious solution for quiet rehearsals and late-night practice at home. Get real cymbal feel and sound at reduced volume, with L80 Low Volume cymbals.

LEARNING HAS NEVER BEEN SO MUCH FUN!

Boom Whackers Tuned Percussion Tubes are lightweight, hollow, colour-coded, plastic tubes, tuned to musical pitches by length. They are used as musical instruments in the percussion family. BOOMWHACKERS have now sold more than 4 million units throughout the world, taking the world by storm, these products are a wonderful educational tool to use in kindergartens, child care centres, schools, bands, in a circle to gather as many people as you can for even more sound or just at home, These work great on any flat surface even your head or your leg or anywhere you wish!!

Chroma Notes is the colour system that Boomwhackers use to designate the notation of each tube and serves as a visual reference for those who are learning music and music theory.

Chroma Notes are available as "stick-ons" and may be placed on existing instruments such as pianos, xylophones, melodicas, etc., to enable the instruments to be played using any current notation for Boomwhackers, or played from the Whacky Chroma-Notes Composer software or other commercial music notation programs such as Finale® and Sibelius®.

The stickers are reusable and leave no residue on the instrument there are also instruments in the Chroma Notes line pre-coloured to match the Boomwhackers colour theme such as the Resonator Bell Sets.

Boomophone™ XTS Whack Pack
This innovative and award winning product expands the versatility of the popular Boomwhackers® Musical Tubes by enabling them to be played like a xylophone. The Whack Pack contains: the 8-tube Boomwhackers C Major Diatonic Scale Set; Xylotote™ Tube Holder; Boomwhacker Whacker™ Mallets; Octavator™ Tube Cap that lowers the pitch of any Boomwhacker tube by a full octave, Whack-a-Doodle-Do! Songbook (with colour-coded notes to match the Boomwhackers) and instructions.

Xylotote™ Tube Holder
Made of cotton, elastic, and hook-and-loop fasteners, the Xylotote™ is an important component of the Boomophone™ XTS Whack Pack. Two or more can be combined end-to-end for a wider range of play. XT8G

Boomwhacker Whacker™ Mallets
The Mallets are also included in the Boomophone™ XTS Whack Pack. ML1G

Symphonic Series

Timpani represent a significant investment to any music program

Majestic's commitment to providing high quality to all levels of players includes all levels of budgets. The Symphonic series features a cast aluminum suspension frame with a choice of kettle materials including precision hammered copper, polished copper and our exclusive FRP fiberglass bowl that allow programs to choose the best fit for their needs.

The popular balance style pedal is easy to use and has been designed to provide accurate, stable tuning with a surprisingly light, fluid action.

Wheels below the pedal for easy transportation

Mallet holder mounted on every 26" timpani

"The rich sound of Majestic timpani adds dimension and depth to orchestral, band, and percussion ensemble performance."

-Brian Mason-
Professor of Percussion
Morehead State, USA

www.majestic-percussion.com

"Majestic vibes have style and class. I appreciate the roadworthy construction and the clear, dynamic tone."
