Product name: Maximahold glue

Section 1: Identification of the substance/mixture

Product Name Maximahold glue

Recommended Use Adhesive for Eyelashes (cosmetic use)

Company Details LASH V ENTERPRISES PTY LTD

Address 4 Aspen Circuit Springvale, VIC 3171, Australia

Telephone Number +61 61439 371 341

Emergency Telephone Number Australia Poison Information centre: Phone 13-11-26

New Zealand: National Poison Information centre.

Phone 0800-764-766

Section 2: Hazards Identification

Classification of the Substance or Mixture:

AUSTRALIA CLASSIFICATION

This material is hazardous according to criteria of Safe Work Australia -

Hazardous Chemical Information System (HCIS)

Label Elements

Pictogram

Signal Word Warning

Hazard Classification Eye irritation – category 2

Specific target organ toxicity (single exposure) – category 3

Skin irritation – category 2

Hazard Statement(s) H319 (Causes serious eye irritation)

H335 (May cause respiratory irritation)

H315 (Causes skin irritation)

Page **2** of **6**

Version no.: 3

Date of Previous Revision: 29/9/2021

Date of current revision: 08/08/2022

Product name: Maximahold glue

Section 3: Composition/information on ingredients

Mixture

Ethyl Cyanoacrylate, Polymethyl Methacrylate, Ethoxyethyl Cyanoacrylate, Black 2 (Cl 77266), Hydroguinone, Methyl Pyrrolidone, Polyamide Resin

Section 4: First Aid Measure

Description of first aid measure

Inhalation: If not breathing, give artificial respiration or give oxygen by

trained personnel. If signs or symptoms persist, seek medical

attention.

Remove victim to fresh air.

Skin Contact: Seek medical attention if ill effect or irritation develops.

Immediately remove product from skin with cloth. Remove affected clothing and wash all exposed skin area with mild soap

and water, followed by warm water rinse.

Eye Contact: Do not attempt to pull apart bonded eyelid. Seek medical

attention immediately. In case of eye contact, immediately rinse with clean water for 10 – 15 minutes. If itching, redness, or

burning sensation develops, see a physician.

Ingestion: If lips are bonded together, use warm water to gently separate

lips apart. Do not induce vomiting. Saliva will cause

cyanoacrylate to polymerize. Call a physician.

Note to physician Cured product does not pose a health risk

Section 5: Fire-Fighting measures

Type of hazard Combustible. Flash point 92 deg C (197.6 deg F). Closed Cup.

Hazardous combustion products Under fire conditions, hazardous fumes will be present.

Combustible liquid and vapor.

Extinguishing mediaUse dry chemical powder, water spray or foam. Do not use water

jet.

Page **3** of **6** Version no.: 3

Date of Previous Revision: 29/9/2021 Date of current revision: 08/08/2022

Product name: Maximahold glue

Special procedures As in any fire, wear self-contained breathing apparatus pressure-

demand (MSHA/OSH approved or equivalent) and full protective

gear.

Section 6: Accidental Release Measures

Special precautions Wear protective clothing.

Technical measures Disposal of clean up materials may be governmentally regulated.

Observe all applicable local, state and federal waste

management regulations.

Environmental precautions Prevent entry to sewers and public waters, or other

environmental mediums.

Methods and material for containment and cleaning up

Small Spill: Absorb with an inert material and place is appropriate

waste disposal container.

Large Spill: Extinguish all sources of ignition. Stop spill or leak at source. Absorb with an inert material and place in an appropriate

waste disposal container.

Section 7: Handling and Storage

Precautions in handling and

storage

Keep away from sources of ignition. Good ventilation of workplace required.

Technical protective measures Rapid polymerization occurs upon contact with water or

alkaline substances. As a result, heat is generated. Skin inflammation or burns may occur upon contact during

this polymerization.

Storage: Store in dry, cool, well-ventilated area.

Keep away from sources of ignition.

Handling To avoid fire, minimize ignition sources. Avoid contact with

eyes, skin, and clothing. In case of insufficient ventilation. Wear suitable respiratory equipment. May react in presence of moisture. May react or be incompatible with alkalies. Wash

thoroughly after handling.

Section 8: Exposure Control/Personal Protection

Control parameters

Individual Protection Measures (PPE):

Page **4** of **6** Version no.: 3

Date of Previous Revision: 29/9/2021 Date of current revision: 08/08/2022

Product name: Maximahold glue

Respiratory protection: In case of insufficient ventilation, wear suitable respiratory

equipment.

Eye Protection: Use splash goggles when eye contact due to splashing is

possible. Safety glasses.

Skin protection: Wear gloves

Hygiene measures: Emergency eye wash fountains and safety showers should be

available in the Immediate vicinity of any potential exposure.

Section 9: Physical and Chemical Properties

Appearance Liquid, black

Physical state at 20 degrees Celsius Liquid

Boiling Point 190 degrees Celsius (374 degrees Fahrenheit)
Flash Point 92 degrees Celsius (197.6 degrees Fahrenheit)

Relative density, liquid (water=1) 1.05

pH Not Applicable

Section 10: Stability and Reactivity

Stability and reactivity Water will cause polymerization

Hazardous decomposition

products

Nitrogen oxides.

Carbon oxides (carbon monoxide, carbon dioxide)

Unidentified organic compounds in fumes and smoke may be

formed during combustion

Hazardous polymerization Yes

Heat generated during polymerization

Materials to avoid Alkali

Reducing agents

Water. Oxidizing agent

Alcohol Acids Amines

Conditions to avoid Exposure to light, water or moisture

Product name: Maximahold glue

Section 11: Toxicological Information

Information on toxicological effects

Rat oral LD50 [mg/kg] >5000

Rabbit dermal LD50

[mg/kg]

>2000

Other Irritation: Continuous high volume usage can irritate mucous

membranes and the upper respiratory tract. Sensitization: May cause sensitization.

Section 12: Eco-toxicity Information

Ecological effects information No data available

Use this product according to good working practices. Large quantities should not be discharged into waterways to prevent pollution of the waterways. Inform the competent authorities, should the product reach waterways or contaminate soil or vegetation.

Section 13: Disposal Considerations

Disposal instructions:

Applicable for industrial settings only: Care must be taken to prevent environment contamination from the use of this material. Dispose of product in accordance with all local, state / provincial and federal regulations.

Section 14: Transport Information

Land transport ADG/ADR/RID (cross-border)

Proper Shipping Name UN 1993, Flammable Liquid, n.o.s.

UN no 1993

H.l. nr 33

ADG/ADR/RID Special Provision: 640D

Group: II Class: 3

Date of Previous Revision: 29/9/2021 Date of current revision: 08/08/2022

Product name: Maximahold glue

Section 15: Regulatory Information

Regulations

This product has been classified in accordance with the HCIS (Hazardous Chemical Information System) criteria Safe Work Australia

AICIS

Product is a cosmetic product and regulated under the Australian Industrial Chemicals Introduction Scheme

Section 16: Other Information

Disclaimer:

The information continued herein is based on the manufacturers own study and the work of others, implied, as to the accuracy, completeness or adequacy of the information contained herein, and neither the provider nor the manufacturer are liable to any party for any damages of any nature, including direct, special or consequential damages arising out of or in connection with the accuracy, completeness, adequacy or furnishing of any information in the SDS, or in any other way related (directly or indirectly)to this SDS.
