

Quality Policy

Redtronic provides its Clients with an experienced and competitive specialist service in the field of vehicle fitments and associated products.

As a company, we are totally committed to putting the complementary requirements of Quality Assurance and Health and Safety as the highest priorities in all aspects of our business. It is one of our Corporate Objectives to continually strive to enhance the overall quality of service to all our customers. We are therefore committed to a policy that ensures the product of our work achieves a standard that complies fully with contractual, legislative and where appropriate environmental requirements.

To achieve our objectives Redtronic has established and maintains a Quality Management System that complies with the requirements of International Standard BS EN ISO 9001:2015. Adherence to this system will aid in the achievement of our Corporate Objectives of continuous growth and increasing returns for stakeholders. The Quality Management System shall be subject to periodic review to ensure continuing suitability.

The company is committed to continually improve the effectiveness of its Quality Management System and Health and Safety performance based on the full understanding and active participation of all employees in operating the policies and procedures of the system. Management will ensure that all staff remain aware, understand and comply with the requirements of the system. Management will ensure a framework exists to review, monitor and set company objectives at periodic intervals.

The company recognises the value of the workforce and as such is committed to continual staff development by evaluating needs and providing training for all personnel. In this way we will fulfil the ever changing needs and expectations of our Clients, and continually improve the quality of service we provide to them.

I the undersigned by virtue of the signature commit the organisation to the continuous support of the Quality Management System, this policy statement and defined objectives.

Mr S Redfern
Technical Director
Redtronic Limited
