DESIGNED BETTER. BUILT STRONGER. LASTS LONGER.

FRESH-FLUSH™ SYSTEM

A built-in fresh water tank. Use it to flush out all plumbing lines to avoid mixing spray chemical.

TIME-SAVER™ FORK-POINTS

The built in fork slots makes the entire unit a breeze to lift and load.

CHEM-MIX™ AGITATION

An integrated agitation creates a swirl-like motion at the base of the tank. This is what mixes the chemical with the water.

SAFE-BALANCE™ DESIGN

Because of its shape, the entire weight of the tank is shifted closer to the rear tractor wheels. A lot safer when spraying on sloped terrain.

QUICK-CONNECT™ BOOM PORTS

Built-in boom connection points to save time and hassle when removing and attaching a spray boom.

AUTO-DRAIN™ SUMP BASE

The sloped tank base channels every ounce of spray chemical to the drain. Just where it should go.
