Our skin is the largest organ in our body, and what we put on it is directly absorbed through our pores. Therefore, it can dramatically affect our health positively or negatively.

*Since our bodies require vitamins and minerals to be healthy, it makes sense that putting pure minerals on our face as our makeup is the healthiest choice.*

Sweet Minerals gives the face a lightweight glow with natural undertones to match every skin tone, providing true 18+ hour coverage while protecting, healing, and nourishing the skin and body.
