

HOW TO PACK STORAGE FOOD

(1) Lay out the Kit Contents, which include:

6 – 250# Test Corrugated Outer Cartons.

24 – 250# Test Corrugated Inner Cartons.

24 – 4 Mil Plastic Bags.

24 – Nylon Bag Ties.

1 – Dispenser Roll 3M High Performance Carton Tape

1 – Permanent Sharpie Black Marker

(2) Bag a #10 can to include a Desiccant inside, then close the top with a “twist” and a Nylon Bag Tie.

(3) Cross tape the bottom of an Inner Carton and place the bagged #10 can inside... then close and cross tape the top. Be sure to write the can contents in the nomenclature box on the Inner Carton.

(4) Cross tape the bottom of an Outer Carton and place 4 sealed Inner Cartons inside. Be sure to write the can contents in the nomenclature box on the Outer Carton.

(5) Close and cross tape the top.

NOTE: If you are having difficulty or are uncomfortable packing your Storage Food, please call us for assistance.
