

TruShot 2.0™

Mobile Dispensing System

TruShot 2.0™ Mobile Dispensing System
For TruShot 2.0™ Chemistries

Keep crews moving with our patented spray-and-wipe cleaning system that provides optimized dilution delivery. The easy-to-use system requires no mixing, measuring or stopping and its fully intuitive design will have cleaning crews using it in minutes.

The no-spill, 10-oz. concentrate cartridges snap directly into the trigger dispenser and the pre-labeled cartridges ensure you comply with OSHA workplace labeling compliance. The on-board 10-oz. water reservoir easily fills at any water source reducing re-supply trips to the closet.

Using our proprietary high-quality SC Johnson Professional® TruShot 2.0™ hard surface chemistries, this patented system simplifies dilution dispensing and replaces wall-mounted or other inconveniently located concentrate dispensing systems.
