## In Stock, Non-Proprietary, Proven & Competitive

Delco Elevator Products Ltd. has always been a family owned and operated business and is proud to have been helping our customers with elevator components for over 45 years.

With a head office and warehouse in Vancouver, BC, Canada, and a warehouse in Seattle, WA, USA, Delco is strategically located to source, stock and ship elevator products to customers in Canada, the Caribbean and the US.

From MRL packages & machines to popular components, including roller guides, shackles, oil buffers, governors and door edges to a range of elevator parts, the company's comprehensive product selection is one of the reasons that customers have been returning to Delco for decades.

Another reason is that we are very good at ensuring that the right items arrive at the right time to elevator contractors across North America.

Delco's dedicated, experienced and enthusiastic team works diligently to provide exceptional service in the following key areas:

- **In Stock:** We keep our components stocked to make sure that customers receive what they need, when they need it.
- **Non-Proprietary:** Delco's products are universal – perfect for modernizations.
- **Proven Products:** Delco manufactures and distributes products that are tried, tested and proven in the field.
- **Compliant:** Delco products and equipment meet all elevator industry compliance and certification standards.
- **Value for Money:** In a highly competitive marketplace, Delco provides the best quality elevator equipment at the lowest possible prices.
- **Personal, Knowledgeable Staff and Service:** Always on hand to assist you with your unique requirements!

## HOW TO ORDER

Delco services elevator contractors and OEMs in Canada, the Caribbean and the US, including Puerto Rico and Hawaii.

Phone: 1.604.904.3727 - CAN/USA  
Toll Free: 1.866.900.3727  
Email: [info@delcoelevator.com](mailto:info@delcoelevator.com)

# HAIDERDRIVE

Introducing  
The Ultimate Combination Of  
Quality & Affordability

HAIDER DRIVE is a full line of **CSA approved** elevator machines for modernization & new construction

**About Haider Drive:**

Haider Drive Co., Ltd is an advanced technology manufacturing company.

The company's primary focus lies in the design and manufacture of both geared and gearless elevator traction machines, catering to a broad range of load capacities of up to 12,000 lbs and speeds of up to 1,400 FPM.

The Haider Drive traction machines have received both the CE certification for compliance with European standards, as well as the CSA certification for the North American market.

Since its inception in 2021, the company has established robust partnerships with distributors and customers across China, Africa, and Southeast Asia. Annually, Haider Drive Co., Ltd serves over 500 clients domestically and internationally.

In pursuit of accelerated future growth, Haider Drive Co., Ltd is dedicated to further cultivating its presence in the international market, with a particular focus on North America.

# OVERHEAD GEARED

# OVERHEAD GEARED

## Benefits:

- Large start torque
- Large sheave diameter
- Either 1/2" or 5/8" rope
- Emergency Brake as Option
- Easy maintenance
- Simple brake adjustments
- Flange mount motors dismount easily and simplify
- Bronze gear
- With Incremental encoder

## Standard Features:

- Accurate Motor Control with VVVF design
- Gearbox with asynchronous motor
- Flexibly useable, both in modernisation and in new installations
- Drive sheave rope retainer
- Either Left or Right hand
- Roping 1:1
- Capacity up to 12000 lbs
- Speed up to 500 fpm
- Temperature monitoring by PTC thermistor

Capacity (lbs)	500	700
5000	HGL292AB-2-1-5050	HGL292AB-2-1-5070

### Benefits:

- Large start torque
- Large sheave diameter
- Either 1/2" or 5/8" rope
- Emergency brake as an option
- Easy maintenance
- Simple brake adjustments
- Flange mount motors dismount easily
- Bronze gear
- With incremental encoder

### Standard Features:

- Accurate Motor Control with VVVF design
- Gearbox with asynchronous motor
- Use for basement
- Drive sheave rope retainer
- Either Left or Right hand
- Roping 1:1
- Capacity up to 6000lbs
- Speed up to 450fpm
- Temperature monitoring by PTC thermistor

3500	HGL334				
	HGL334	HGL334		HGL290	
		HGL290			
5000	HGL290				

### Benefits:

- High efficiency, low temperature rise
- Quieter operation
- Smoother start up
- Compact design
- Nearly maintenance-free
- Either 8mm or 10mm rope
- Hardened drive sheave and V groove

### Standard Features:

- AC synchronous permanent magnet design
- Use for small hoistway
- Separated controllable brake as safety device
- Drive sheave rope retainer
- Roping 2:1
- Capacity up to 5000 lbs
- Speed up to 500 fpm
- Temperature monitoring by PTC thermistor

### HGL Series

HAIDERDRIVE

HGL Series (1:1 roping)			
	Speed		
Capacity (lbs)	200	350	500
2500	HGL292A (508mm)		
3000			
3500	HGL292 (410mm)		
4500	HGL320		

HGL Series (2:1 roping)		
	Speed	
Capacity (lbs)	500	700
5000	HGL292A (508mm)	

### Benefits:

- High efficiency, low temperature rise
- Quieter operation
- Smoother start up
- Compact design
- Nearly maintenance-free
- Either 1/2" or 5/8" rope
- Hardened drive sheave and V groove
- Replacement of geared machine as Option

### Standard Features:

- AC synchronous permanent magnet design
- Either MR or MRL
- Separated controllable brake as safety device
- Drive sheave rope retainer
- Roping 2:1 or 1:1
- Capacity up to 5000lbs(2:1) or 4500lbs(1:1)
- Speed up to 700fpm(2:1) or 500fpm(1:1)
- Temperature monitoring by PTC thermistor

# PRO GEARLESS MACHINE

## Benefits:

- High efficiency, low temperature rise
- Quieter operation
- Smoother start up
- Large capacity and high speed
- Nearly maintenance-free
- Either single or double wrap

## Standard Features:

- AC synchronous permanent magnet design
- Separated controllable brake as safety device
- Drive sheave rope retainer
- Roping 2:1 or 1:1
- Capacity up to 8000lbs (2:1) or 5000lbs (1:1)
- Speed up to 800fpm (2:1) or 1400fpm (1:1)
- Temperature monitoring by PTC thermistor
