

## Health and Safety Protocols (COVID-19)

### Private Events

As GRA slowly re-opens our site, to ensure the safety of our staff and guests, here is what to expect! The following precautions have been instituted by our organization:

#### Staff and Volunteer Protocol:

- Before and after the event, GRA staff will frequently sanitize all common use and high touch areas.
- Visitors will see that we have added a plexiglass shield at the front desk and hand sanitizer at key locations throughout the site.
- GRA representatives will perform self-screening wellness checks at the beginning of each shift and will wear a mask when appropriate.

#### Guest Protocol:

- Visitors are welcomed to be onsite and are **required by State order 20-81** (in effect July 25, 2020) to wear masks or face coverings.
- GRA asks that individuals respect physical distancing when possible; by remaining six-feet or more away from other guests onsite.
- We ask that all guests perform self-screening wellness checks prior to attending (day of). Should a potential guest feel ill, we ask that they do not enter the facility.
- Guests are encouraged to wear a mask during the event (including pre and post activities).

During your event, the space will not be open to the general public.

For private parties scheduled at GRA, tables and chairs will be placed at reasonable distances apart. The total seating capacity at GRA has been reduced from 110 (with round tables) to 55 to accommodate greater social distancing per current State (restaurant) guidelines. However, should the State enforce great restrictions prior to the event, the “Host” will be notified. Accordingly, should this result in the cancellation of the event, and a future date is not available, a full refund will be remitted to “Host.”

Although we are striving to maintain a healthy environment for all guests, by engaging in social activities the risk of contracting an illness is increased. All guests are asked to be informed of these risks by the “Host” of the private event. Precautions taken by both GRA (noted above) and our expectations of visitors on site, should be shared with all guests prior to their arrival.
