SNOUT WIPES

## HEY THERE, AWESOME DOG PARENT!

Jump on the joyride to snout happiness, powered by Natural Dog Company. Your furry buddy? They're not just a pet; they're the hero of your heart, deserving royal treatment. And you, my friend, are about to become the guardian of their snout's bliss. Ready to dive into a tale of transformation, snout style?

## **INTRODUCING: THE SNOUT LIFESAVER**

Our Snout Wipes are not mere wipes; they're your dog's new best bud (after you, of course). They're on a mission to cleanse, pamper, and protect your pup's snout, making dry, crusty noses a thing of the past.

## Why Snout Care is so important:

**Hydrate and Heal:** Say goodbye to dry, chapped snouts and hello to hydration heaven.

**Soothe and Secure:** Calm irritation and shield against the elements—because your dog's nose is the cutest radar they've got.

**Health is Wealth:** A happy snout means a happy, healthy dog ready to sniff out the next adventure.

# WHAT MAKES OUR SNOUT WIPES A SNOUT SAVER

Imagine a blend of nature's finest—Kukui Oil, Shea Butter, Chamomile—each picked for its snout-soothing superpowers. And that's just the beginning! We've got a whole lineup of Eye, Ear, and Paw Wipes because why should ears have all the fun?

Your Wipe Wardrobe Awaits.

## Why you'll love our doggy wipe lineup:

**Custom Care** for Every Care: Snouts, eyes, ears, paws—there's a wipe for every spot.

**Grab 'N Go Greatness:** Perfect for home, park, or on an epic road trip, our wipes are all about quality meets convenience.

**Nature's Best for Your Beast:** Inspired by the wild, our ingredients bring out the wolf in your dog, healthily and naturally.

## TURN ROUTINE INTO LOYALTY

Bringing our Snout Wipes into your dog's daily regime is like pledging to keep their snout in tip-top shape. It's more than care; it's an upgrade to their daily joy.

**Treat Time:** Start with a yummy treat to get your pup excited. It's like saying, "Hey, we're about to have some fun together!"

**Prep Time:** Grab a Natural Dog Company Snout Wipe. Feel the excitement? You're about to do some pampering!

**Call Over with Cheer:** Summon your dog with your happiest voice. Excitement is infectious, and we're all about spreading joy.

**Gentle Approach:** Gently hold your furry friend's face, showing them the wipe. It's not a mysterious object; it's a ticket to snout luxury!

**Soft Touch:** With love, softly wipe their snout. You're not just cleaning; you're giving them a mini spa experience.

**Nooks and Crannies:** Make sure to gently wipe around their nostrils too. It's like detailing a car but way cuter and snugglier, (and hopefully less gas).

**Praise Galore:** After the wipe, it's time for praises and maybe another treat. It's a celebration of a fresh snout!

**Proper Disposal:** Toss the used wipe in the bin. Keeping things clean includes your space too.

**Regular Ritual:** Make this a part of your daily routine for a consistently happy and healthy snout. Plus, it's another great bonding moment!
