

LEG UP

Oilseed Goodness

Cold Pressed Sunflower Meal

Protein & Fat for Maintaining Condition

Leg Up Sunflower Meal is derived from New Zealand grown high oleic sunflower seed. A cold pressing process is used to extract the oil from seed without the use of heat or chemicals. This gentle process ensures all nutritional benefits are retained (protein and oil) in the meal and are available for your horse to utilise.

Leg Up Sunflower Meal is not a complete feed and therefore should be applied into a balanced diet.

Key Benefits

- Quality fat and protein for building and maintaining body condition
- Low starch and sugar providing a cool source of energy
- Higher fat levels for coat shine and healthy skin

For Best Results:

- Feed into a balanced diet (high in fibre)
- Feed in conjunction with Leg Up Performance Oil for optimal coat shine and joint health
- No soaking required
- Adjust the below feed rates depending upon condition and level of work

Feed Rates		
Weight range of horse	Maintaining body condition	Improving body condition
300-400kg	300g	600g
400-500kg	400g	800g
500-600kg	500g	1kg

Major Nutrients	Per 1kg
Digestible Energy	13.2 DE
Crude Protein	26%
Crude Fat	14%
Crude Fibre	31%
Moisture	7%
Starch	1%
Soluble Sugar	5%
NSC	16.50%
