What is Sunbrella? the premier outdoor fabric option

ULTIMATE COLOR VIBRANCE

Made from a 100% solution-dyed acrylic, Sunbrella performance fabrics are saturated with color and UV-stabilized pigments in every fiber of the fabric.

UNMATCHED UV RESISTANCE

Sunbrella fabric is engineered with unparalleled UV resistance, ensuring vibrant colors that won't fade, even when exposed to relentless sun rays.

WATER REPELLANCY & MILDEW RESISTANCE

Thanks to its innovative design, Sunbrella fabric repels water and resists mold and mildew growth. Your outdoor cushions will remain safe and dry, even during unexpected rain showers or morning dew.

EASY CLEANING & MAINTENANCE

Sunbrella's stain-resistant properties make it incredible easy to clean. Simply wipe away spills or dirt with mild soap and water, and your cushions will look good as new.

EXCEPTIONAL DURABILITY & STRENGTH

Built to withstand the rigors of outdoor environments, Sunbrella is resistant to tearing, abrasion, and fraying. You can expect your cushions to maintain their integrity even with frequent use and exposure to various weather.

EXCELLENT BREATHABILITY

The breathability of Sunbrella fabric allows for proper air circulation, preventing the buildup of mold, mildew, and unpleasant odors.

WHITES & CREAMS

Using white or cream-colored fabric in outdoor cushions creates an elegant and timeless aesthetic, effortlessly blending with any outdoor setting and providing a sense of tranquility and sophistication.

Care & Cleaning

a guide to caring for Sunbrella fabric

Try this first...*With a new spill or stain*

- Blot (don't rub) liquid spills with a clean, dry cloth. For oil-based spills, apply an absorbent such as corn starch, then remove with a straight edge.
- Spray on a mild cleaning solution of soap (such as Dawn or Woolite) and water.
- Rinse the fabric thoroughly to remove all soap residue.
- Air dry.

Deep Cleaning Sunbrella Cushion Covers

We recommend only hand washing and air drying your Sunbrella fabric covers. Machine Washing or Tumble Drying can weaken the stitching of your cushion cover, and is not recommended. Soak your fabric cover in a solution of one fourth cup mild soap per gallon of lukewarm water. Use a sponge or very soft bristle brush to lightly agitate the stain. Then rise thoroughly to remove all soap residue, and allow fabric to air dry.

Deep Cleaning Sunbrella Non-Removable Covers

Prepare a solution of one fourth cup mild soap per gallon of lukewarm water. Use a soft bristle brush to clean, allowing the cleaning solution to soak into the fabric. Rinse thoroughly to remove all soap residue and allow fabric to air dry.

Cleaning Mold & Mildew Stain

Sunbrella fabrics do not promote mildew growth, however, mildew may grow on dirt or other foreign substances if not remove from the fabric.

- Prepare a solution of 1 cup of bleach and one fourth cup mild soap per gallon of water.
- Spray on entire area and allow to soak into the fabric for 15 minutes.
- Clean entire surface area with sponge, clean towel, or very soft bristle brush.
- Rinse thoroughly to remove all soap residue, and allow to air dry.
