The Ultimate In Fun & Educational Construction Sets For Kids Suitable For Ages 5 And Up!

The next step in construction-based toys is here with Construct It Flexibles! This fantastic range is aimed at younger children who have an interest in making things and love cool vehicles, robots, and other fun and exciting things. The Construct It Flexibles range is heavily themed around STEM learning. Children will be having fun, but there are also many, many educational benefits too.

Children will be working on their fine motor skills, colour, and shape recognition, they will be encouraged to think creatively and they will start to think about the way things in the world around them are created! There are sets of all shapes and sizes as part of the Construct It Flexibles line, but they all share the same size of fun and creative play!

Construct It Flexibles Key Features:

Tools: Each set comes with child-safe tools that are required for construction. These are aimed at smaller hands for fine-tuning those fine motor skills.

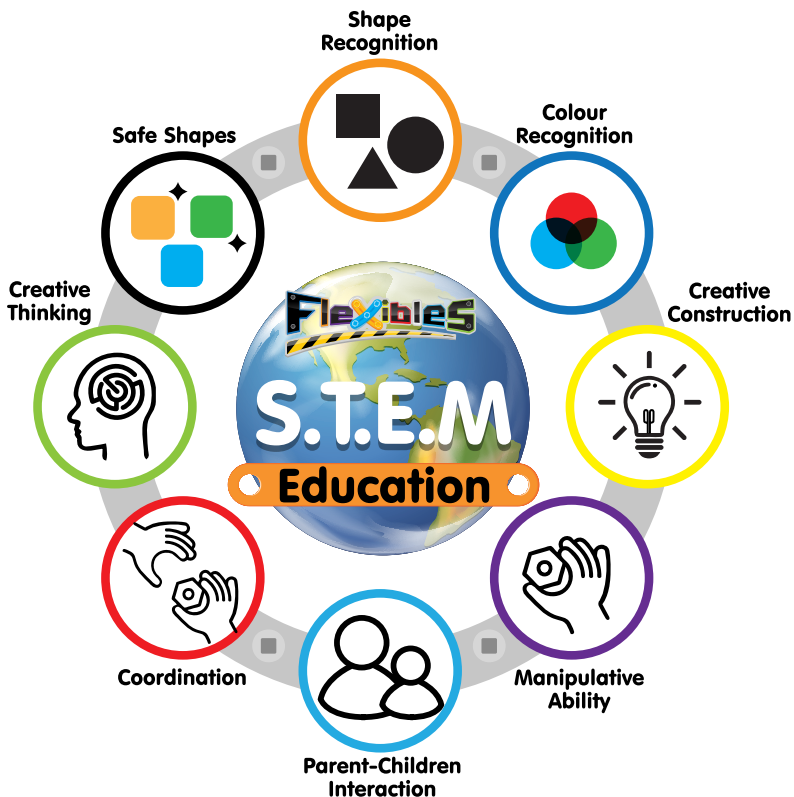

Shape Recognition: The sets in the Construct It Flexibles range are brought to life with many different shapes to expand their thinking.

Colour Recognition: Each set can feature up to eight different colours so it is a real blast to the eyes as children put each piece into place!

Safe And Soft: Flexibles is all about being safe for much younger engineers. Each piece has soft rounded edges and perfect for little ones.

Creative Thinking: These fantastic sets encourage children to think and really embrace their creative side.

Benefits ☒

Specially designed and unique Real Tools

Each set comes complete with all
the tools you need.

Constructing these sets are fun,
using the tools develops many valuable
skills and is great for children to learn
and be creative.
