

Building Product Information

Fleet Modular range

Version: 1 : October 2023

Class 1

Product Name Fleet

Product Line

Product Identifier Vanities

Product Description

The Fleet is a customisable modular cabinet range made up of a frame and drawer assemblies that requires a benchtop and basin(s) to create a complete vanity

The Frame and Drawer banks are constructed from low formaldehyde moisture resistant board finished with a low pressure laminate (melamine). The board is sourced from New Zealand's sustainable FSC certified Radiata pine plantations. Edges are taped with colour matching edge tapes bonded with PUR bonding technology providing a heat resistant, moisture resistant and near seamless bond

- Fleet Frames available in lengths of 890mm, 1190mm, 1390mm & 1590m. (Depth x width = 455x300mm)
 - Fleet Drawer sizes - 450mm, 600mm, 857mm & 1157mm (Depth x width = 422x265mm)
 - Available in a range of colours and finishes
 - Features Soft close drawers
 - Additional options – 350mm top mount handles, Solid surface Benchtops & top mount basins
-

Relevant Building Code Clauses

- G1 - Personal Hygiene
 - B2 - Durability
 - G12 - Water Supplies
-

Contribution to Compliance

- G1. 3.2- The Athena Solid Surface Benchtops are impervious to water and stain resistant.
 - B2/AS1 - Durability: The Vanity with normal maintenance meets the Durability requirements of Nominated Building Elements for Plumbing & Pipe fixtures of not less than 5 years
 - G12.3.5 - Requires hot water for personal washing, showering or bathing
 - F2.3.1 - Athena vanities are constructed from low emission E1 standard board
-

Scope of Use

- Athena vanities are for internal installations only.
 - They are suitable for use in Residential and Commercial applications.
-

Conditions of Use

- Vanity cabinets require walls to be plumb and flat.
 - While constructed from moisture resistant board it is recommended the room be well ventilated
 - Do not position the vanity cabinet in the direct path of any water, any spillages must be wiped up immediately
 - Cabinets must be installed level and without any twist for doors and drawers to operate
 - Cabinets must be attached to the walls using suitable hardware fixed into solid fixings such as studs or noggs
 - When installed, the cabinet must be sealed to the wall.
 - When installed, the bench top must be sealed to the wall and cabinet. Basins must be sealed to the bench top.
 - Any Plumbing must be carried out by a certified Plumber
-
