Type Photo Frames, A3

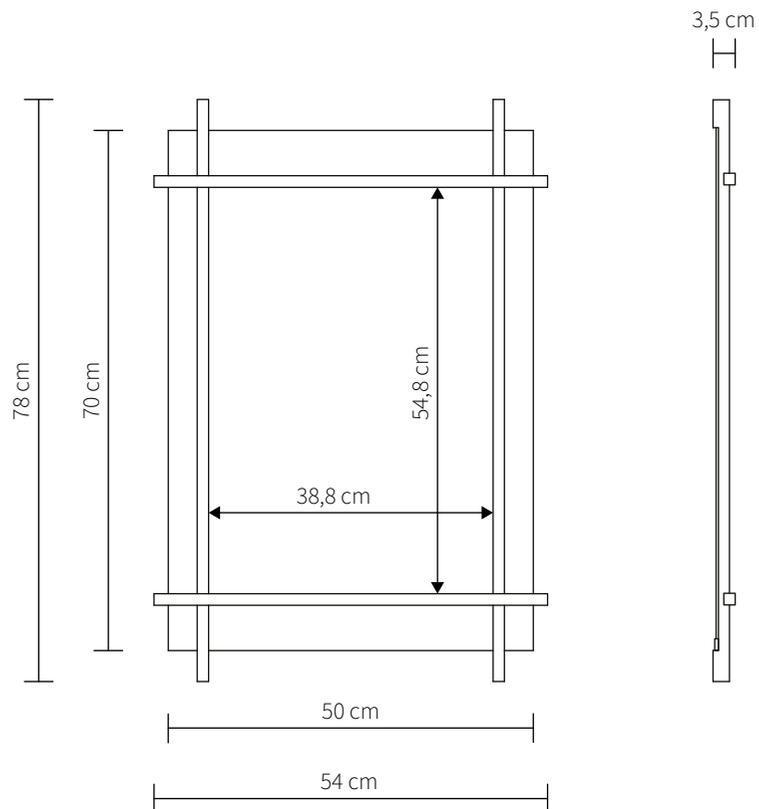

Colours Oak

The Daiku picture frame is the result of a beautiful merging of the classic Japanese craftsmanship tradition and the simple, streamlined design that we are familiar with from the Nordic way of designing. Daiku exudes aesthetic refinement and functionality that will complement any style of interior decor.

In addition to the clear Japanese inspiration, Daiku picture frames also have a Nordic expression. Made from beautifully crafted oak wood and featuring floating glass pieces, the frames radiate Nordic minimalism and elegance. The light finish and simple, clean design make Daiku picture frames versatile and suitable for any home. Each frame consists of four carefully selected oak wood parts holding onto two clear glass pieces, creating the impression that the art is suspended between the four pieces of oak wood. The glass pieces are larger than the wooden frame, so the frame cuts into the glass, allowing for various expressions depending on what is placed in the frame.
