Michael Rem, 2017

Type Flowerpot

Colours Black

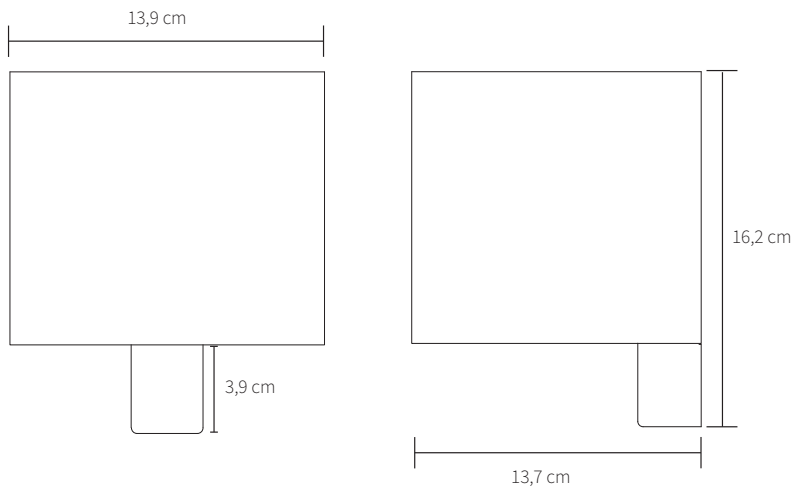

Kollage flowerpot is a wall-mounted flowerpot, that fits in every room of the home. Kollage flowerpot is made of steel and oak.

Kollage flowerpot is designed by Michael Rem. It is inspired by the the classical principle of the French cleat system, that is often to be found in old-fashioned craftsmen workshops. Kollage is characterised by a distinctive hook, which serves as starting point for all the remaining hanging objects in the collection: a mirror, a shelf and a flowerpot.

The original organizing system has been rethought, taken out of the dusty garages and brought in to the design world. Place the hooks, mirror, shelf and flowerpot how you like and create a collage of useful and decorative items.
