LEERY

Kasper Friis Egelund, 2018

Type Table Lamp

Colours Black

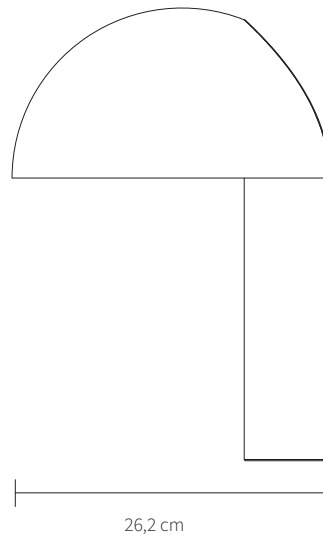

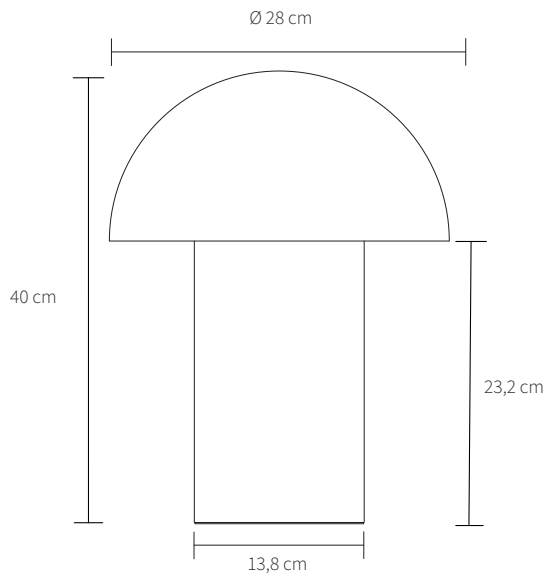

Leery table lamp is designed by Kasper Friis Egelund for Gejst. Pure round shapes (ball and cylinder) creates this quite minimalist but still characteristic lamp.

To emphasize the simple design approach, an honest and almost obvious “pull-out” of the cord, is made. To balance the lamp a concrete piece is placed on the back, to keep it upright. An E27 socket is fitted inside the lamp shell. The raw industrial look fits perfectly in to the Gejst universe.

The Leery Table Lamp embraces and protects the light, therefor the name Leery
