UNDERGROUND

GEJST Design Team, 2013

Type Coat Rack

Colours White/oak

Underground coat rack, is inspired by the London underground train system, was originally launched in 2013. The rack has now been redesigned, and Underground has turned in to a flawless and complete item.

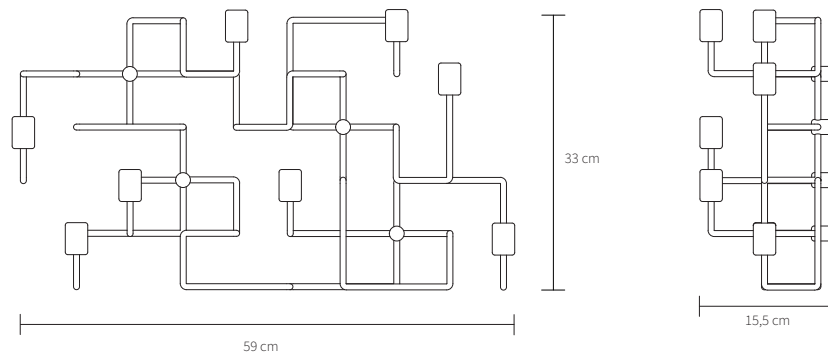

The frame on rack has a matte surface treatment, that gives the Underground coat rack a raw finish and a stylish look.

The carefully placed hooks, provide ideal possibilities for utilizing and using the coat rack as a functional product, that can carry the entire family's outerwear.

The coat rack is a statement, and a challenge to triviality and averageity. The staggered levels and sculptural incisions create a three-dimensional expression, that requires attention and opinion.
