

Marine Bilge Clean

Features

- Super concentrated
- Contains live bacteria
- All natural with fragrance

Benefits

- Fast odor elimination
- Consumes oil sheen
- Fresh Lemon Eucalyptus

Eco Strong's **Marine Bilge Clean** is a super concentrated, all-natural bio-enzymatic formulation. It's a 3 in 1 product: Lemon eucalyptus deodorizer, odor eliminator and bilge cleaner. It will naturally eliminate foul bilge odors, deodorize your bilge and consume hydrocarbon sheen. The result is no more seasick-inducing foul odors or polluting bilge discharges. Our super concentrated formulation attacks foul-smelling compounds and eats residual hydrocarbons. Unlike other bilge cleaners that only emulsify the oil and dump it overboard, we eliminate it while still on board. The result is no more seasick caused by bad smells or polluting bilge discharges. That's a truly clean bilge!

Eco Strong is a family owned and operated business based in Illinois. We are recognized as a leading Brand manufacturing high performance all natural, bio-enzymatic cleaning and odor elimination products. We have solutions for: Pets, RV's, Septic Systems, Wastewater, Pond and Marine.

100% 
Customer Satisfaction Guarantee

Directions For Use: Shake Vigorously before using. Do not use bleach, anti-bacterial, detergents or chemicals with this product.

Halo Cap Instructions: Remove Halo cap and remove inner seal. Reattach Halo cap. To use pull up and squeeze bottle. To close, push cap down.

Bilge cleaning and sheen elimination:
Remove all free oil and fuel before application.

Step 1: Squirt product onto the bilge water and any surrounding surfaces that bilge water may come into contact with while underway. If bilge is dry add a few gallons of water first. Apply a ½ ounce per foot of boat length.

Step 2: Initially scrub as much bilge areas as possible. Do not pump bilge for 7 days. Lightly scrub before discharge. Repeat as necessary.

Bilge odor elimination:

Step 1: Wet as much surface area under the floorboards and in the bilge as possible. Keep away from all equipment which is not waterproof.

Step 2: Squirt product onto bilge water and any surrounding surfaces that bilge water may come into contact with while underway. If bilge is dry add a few gallons of water first. Do not pump bilge for 7 days. Usage will vary depending on the amount of bilge surface you can access and wet. Repeat as necessary.

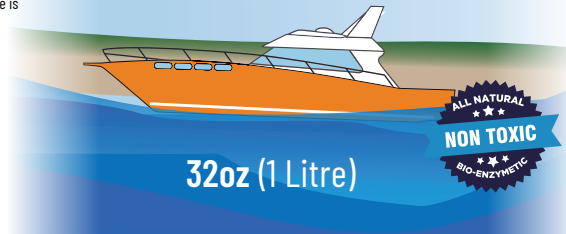

Biology takes time to consume the hydrocarbons and offending organic matter which contribute to dirty, smelly bilges.

Warning: Keep out of reach of children. Do not ingest. Wash hands thoroughly after each use. Keep out of eyes and/or open sores. May cause eye irritation. If irritation occurs rinse eyes thoroughly with water for several minutes. If irritation persists, seek medical attention. **Storage:** Do not freeze.
