### Benefits

- Neutralizes Ammonia & Odors
- Supports Flock Health
- Improves Harden Compost

**EcoStrong** We believe that there are better alternatives to the typical chemical products we've grown up with. At EcoStrong®, our philosophy is simple: design products that will outperform the competition, never cut corners, and never damage the environment in the process of achieving our goals. We understand the needs of our products—they must do the job they are designed for. EcoStrong is putting biology to work on things to solve problems that used to just get covered up, sterilize or rinse away. While you can throw all kinds of things at the problem, we have natural and sustainable. Something we can all feel good about.

Chickens make lovely free-range eggs but also produce large quantities of ammonia that is unhealthy for the family and flock.

**EcoStrong's Chicken Coop Odor Eliminator** contains the widest variety of all-natural microbial cultures, which reduces odor and increases compost quality. **Chicken Coop Odor Eliminator** is an all-natural, sustainable product that controls ammonia, odors and has a light garden-fresh scent.

Verified Purchase

This product really helps to eliminate the ammonia odor that is so toxic to chickens. Even a clean coop can build up this scent fast if slightly damp or humid.

| Product Code | Product Name                 | Quantity             | Case Count | Units Per Pallet |
