

## Leach & Drain Field Blast

### Where to Use

Homes, Businesses, Individual or Cluster  
Septic Systems

### Features

- Increases Drain Field Performance
- Multi Strain Bacteria & Enzymes
- Boosts System's Natural Balance

### Benefits

- Decreases Back Ups
- Eliminates Foul Odors
- Reduces Repair Expenses

**Eco Strong** is a family owned and operated business based in Illinois. We are recognized as a leading Brand manufacturing high performance all natural, bio-enzymatic cleaning and odor elimination products. We also manufacture solutions for: Pets, Septic Systems, Wastewater, Pond, Marine, Chicken & Fly.

Failing leach and drain fields are the leading cause of septic system failure. **Eco Strong's Leach & Drain Field Blast**, combines natural bacteria with additional enzymes that chop up and digest build-ups and Biomats, thereby increasing flow and soil abortion while supporting the system's biological balance. \*(The drain field must have some flow or the product will not work because it can not reach the areas that needs treating.)

Our all-natural bio-enzymatic formula is safe for use in all types of plumbing, drains, septic systems, leach and drain fields, cesspools, and pits. Made in America and tested to the highest standards to ensure purity and performance. All **Eco Strong** products are safe for people, pets, and the planet.

**Eco Strong's Leach & Drain Field Blast's** formula combines six strains of enzyme-producing bacteria with an additional four strains of specialist enzymes. Unlike other products that use bacteria or enzymes alone, Drain & Leach Field Blast packs a one-two punch.

# Leach & Drain Field Blast

James T.

★★★★★ **IT'S WORKS!!!**

Reviewed in the United States on April 24, 2022

Size: 32 OZ | **Verified Purchase**

This stuff worked quicker than the last product I used which was Riobic. Sometimes I get smells coming from the yard over the bed and within three days I could not smell anything. So, I would check this up as a WIN. I will use it again!

★★★★★ **It works overnight.**

Reviewed in the United States on August 13, 2022

Size: 64 OZ | **Verified Purchase**

Worked as advertised. Opened drain field overnight. Eliminated odor. This was put directly into drain field of greasetrapp after pumping grease laden water out of pipe in drain field.

**Directions for use:**  
Pour the entire bottle down the toilet and flush. Repeat every six months.

**Intensive Care:**  
If septic performance has not improved after two weeks repeat as above. If problems persist, consider using *Eco Strong's Septic Liberator*, a more concentrated product designed to fix seriously failing systems.

Shake vigorously before each use. Always use product at low flow times such as overnight. The use of boiling water, bleach, or anti-bacterial or other chemical products in conjunction with *Eco Strong's Leach and Drain Field Blast* will negatively impact performance.

**Warning:** Keep out of reach of children. Do not ingest. Wash hands thoroughly after each use. Keep out of eyes and/or open sores. May cause eye irritation. If irritation occurs rinse eyes thoroughly with water for several minutes. If irritation persists, seek medical attention.  
**Storage:** Do not freeze.

**Eco Strong's Leach and Drain Field Blast** increases flow and drainage in sluggish and/or clogged drain fields.

*Leach and Drain Field Blast* contains trillions of beneficial bacteria and four additional strains of powerful enzymes that break down clog forming sludge, soap scum, paper, fats, grease, and more. Additionally the added enzymes will attack stubborn fouling bio-mats.

*Leach & Drain Field Blast* also eliminates odors while working in harmony with the system's natural bacteria. Containing six times the amount of biology as compared to the leading competitor *Leach and Drain Field Blast* will also reduce sludge increasing the time between pump outs.

**Ingredients:** Water, micro nutrients, enzyme producing bacteria, wide variety of specialized enzymes.
