Eco Strong is a family owned and operated business based in Illinois. We are recognized as a leading Brand manufacturing high performance all natural, bio-enzymatic cleaning and odor elimination products. We also manufacture solutions for: Pets, Septic Systems, Wastewater, Pond, Marine, Chicken & Fly.

Eco Strong's Muck Miner is an all-natural way to reduce and eliminate organic muck found on shorelines, beaches and around docks. Our professional strength tablets are designed to sink into the muck and slowly release millions of hungry beneficial enzyme producing bacteria. Muck Miner tablets contain six strains of all-natural bacteria assuring the broadest consumption of organic matter. Not only can muck miner reduce up to 2" of muck per month we eliminate foul standing water odors. Use as directed and over time you will marvel at the improvement.

Consumes

- Dead leaves
- Grass clippings
- Fish waste
- Bird droppings
- Dead algae
- Rotting vegetation

100% Customer Satisfaction Guarantee

Directions for use:
For best results begin treatment in the spring when the water temperature reaches 50F. Do not use in conjunction with algicide.

Use 2 handful (1 1/3 pounds) or approximately 150 pellets for every 75' of shoreline. Spread as evenly as possible along the shoreline, in at least 12" of water, and out 15' or 20' feet.

Treatment:
Treat every 2 to 4 weeks. Treating more frequently, every 2 weeks, when the water is warm will yield faster results.

Before Muck Miner: Muck, Sand
After Muck Miner: Sand
