The Copen Sofa is a modular sofa, with unlimited potential. The modular nature of the sofa provides further diversity to your lounging experience by offering unlimited configuration possibilities.

Functionality, comfortability and distinction were core traits that captivated Tim during the design process. These attributes manifest themselves in every considered detail, from the feather and foam upholstery, solid Walnut or Oak trim, to the juxtaposition between linear and round.

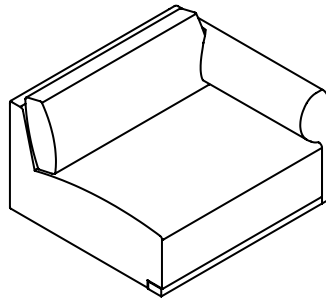

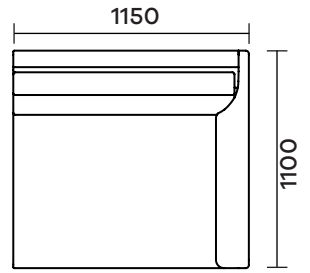

Imperative to the Copen Sofa, is the rounded arm. Inspired by the sweeping interior contours of the Round Tower in the heart of Copenhagen, the curvaceous arm doubles as an anchor to rest on while providing a unique design feature.
