*If you want to pay in 4 installments, select "Shop Pay" during the checkout process.*

## Warranty

We don't sell broken stuff, but in case our competitors manage to break into our plant and sabotage our equipment, the below warranty applies.

As the original purchaser, we guarantee that your Fume Dog extraction system will remain free from defects in material within one year of its original purchase. If such defects appear under normal usage, we will repair or replace your product at no cost to you. Please refer to the Owners Manual for more information about our One Year Limited Warranty.

## Plain English Description:

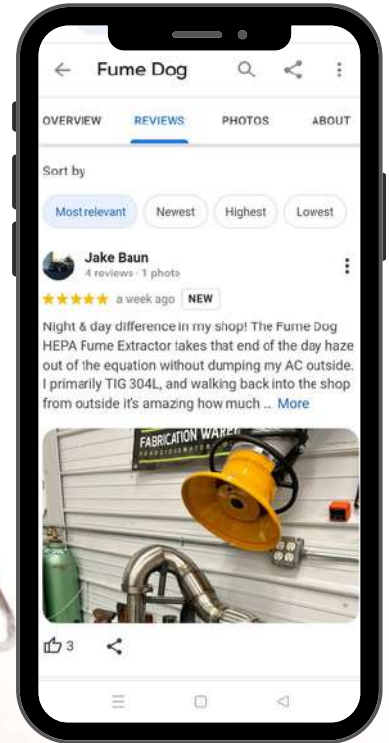

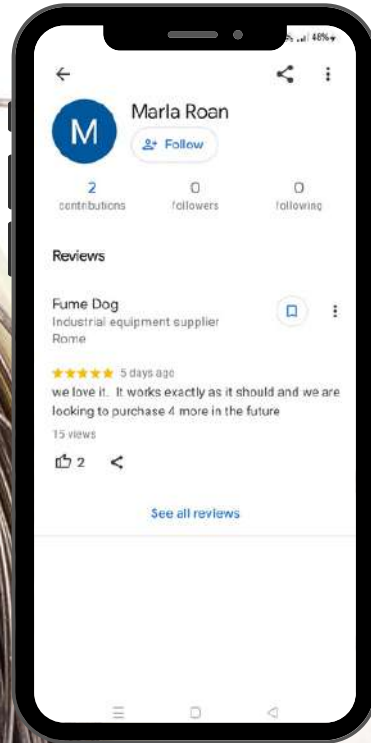

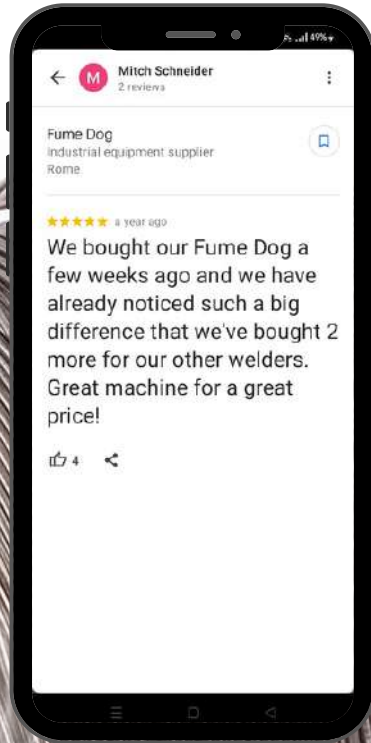

- A 1,200 CFM Portable welding fume extractor with filter cleaning system.
- Fume Arm included
- The Fume Dog can be converted from a ground-mounted portable welding fume extractor to a wall-mounted weld fume collector out of the box.
- Can be converted to downdraft table with an additional accessory ([click here](#)).
- The unique Air Stream Filter Cleaner allows for 5-6 times the filter life over traditional reverse pulse systems depending on application.
- Replacement filters are standard size so we can't force you to pay a ludicrous mark up for a filter you can only get from us.

*Seriously, google replacement filters on some of these things. They are priced like they are coated in powdered Rhinoceros horn.*

- Steel construction, not plastic.
