-  Easy installation
-  Set & forget
-  Freshwater

Digital Chlorinator Pro & pH Wireless Pro

Digital Chlorinator Pro represents the next generation in swimming pool chlorination technology. You can set this chlorinator to cater to your every need and relax in knowing your pool will remain crystal clear all year round.

Energy efficient

Switch mode power supply. Providing energy efficiency, heat reduction and greater longevity of internal components and reducing your carbon footprint.

Single Button Shock Treatment

With the option of selecting running time settings from 1hr-24hrs.

Easy Installation

With its sleek contemporary design, it eliminates the need for space within the filter box and its fixed mounting bracket makes installation easy.

Set & Forget

Automatic timers, pump protection mode, reverse polarity self-cleaning cell.

Freshwater

Low TDS for freshwater taste and feel.

Salt/Mineral compatible
