STATEMENT

Is to certify that, as per the results of the ISO 50.001 audit on energy policy, the external auditing company SGS has validated that the totality of the energy used by LC Paper is of renewable energy, including the electricity (renewable purchase to the mix with certificate of origin + self-generation through solar PPA) and the thermal energy (biomethane and biomass).

This conclusion is outlined in page 16 of the ISO 50.001 full report for the last available year (2023), with reference F.460.01.01 under SGS's database.

In Besalu, Spain, on April 18th 2024.

Pau Vila
CEO, LC Paper
