

BLANK

DUAL TECH SINGLET - BLACK

OUR STORY

Everything is a blank page at the beginning.

Whether you start out training from home, the gym or the office, we all need to begin our journey. We understand that everything is always tougher at the beginning. You may well be exhausted and tempted to give up, remember that everything that is worthwhile is hard.

The potential to get up and have a go is in all of us. There is a need to try something we have never done before, to challenge ourselves and go further.

Blank is about inspiring the everyday athlete. It's about unlocking that potential to see what you've got!

Blank was conceived out of the idea of combining the passion of athletics, the knowledge of sports textiles and an exceptional eye for design and detail. Together Jamie, Gaz and Lucia combined to start Blank

Blank is Non-branded brand... Our vision is performance sportswear that you make your own, whether its understated with no branding, gear you can wear everyday. Or gear that is perfect for groups, companies, organisations and clubs who want to add their own logo too. So keep it blank or have it printed, you can do it all!

We hope you enjoy the journey of Blank!

01

Dual Tech

BLANK's Dual Tech fabric comprises of twin layer filament technology. The first layer is highly breathable thanks to its low gauge knit structure, while the second layer provides moisture drawing qualities with a higher gauge yarn.

Advanced anti-odour technology and premium soft touch feel fabric enables all-day wear for both active and leisure activities. Dual Tech is one of the world's most advanced sporting fabrics.

02

Zephyr

Zephyr fabrication is made up of high filament fibres offering unparalleled moisture-management while its high gauge weave structure & WR treatment gives protection from the cooler elements and rain showers. Zephyr provides the ultimate in feather weight workout experience.

03

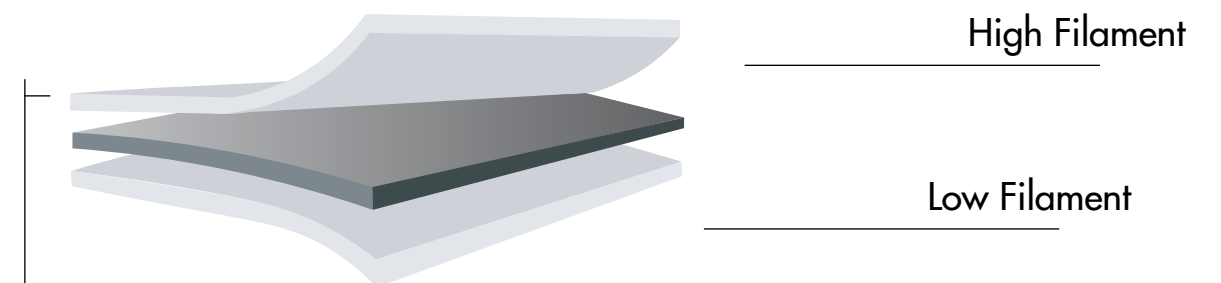

10/10k Membrane

The 10/10k membrane is industry leading with tri layer technology, allowing comfort, style and protection while looking stylish.

The outer layer is a high filament yarn, allowing the middle layer to breathe and transport moisture away from the body. The middle layer is a 10/10k waterproof, breathable membrane allowing maximum comfort while being protected from the elements.

The internal layer is a warmth-grabbing, brushed high-filament fabric that wicks moisture, keeping you toasty-warm and dry.

10/10k membrane combination of fabrics is designed to keep you warm and dry, while allowing your body to breath throughout sporting activity.

Chemical free, moisture management

TECHNICAL SPECS

DUAL TECH SINGLET - BLACK
