

Nunawading Market Traffic Management Plan

The City of Whitehorse requires us to have a market traffic management plan for the safety of stall-holders and the general public.

Stall-holders must follow the regulations set out below.

- 1. Parking**
Car park at rear of Civic Centre is for stall-holders. This area will be closed from 9am.

Car park on Eastern / Police Station side of the Civic Centre is for customers only.
- 2. Speed Limit**
10 kph. Drive slowly & carefully and watch out for pedestrians.
- 3. Stall-holders who park behind or beside their stall on sites opposite and west of Willis Room:** enter and exit the market via the traffic lights entrance.
- 4. Stall-holders who park behind or beside their stall on all other sites:** enter the market via the traffic lights entrance and exit via the driveway near the Police Station.
- 5. Stall-holders who don't park on their site:** enter the market via the traffic lights entrance, unload your goods, exit via the driveway near the Police Station and drive round to traffic lights entrance and park in the area at the rear of the Civic Centre. After closing time: drive carefully into the market from the traffic lights end, load your vehicle and drive out via the driveway near the Police Station.
- 6. Do not drive into or out of the market after 9am and before 2pm - closing time.**
(1pm and 5pm at the Christmas Market.)
