

# Aroma Diffuser

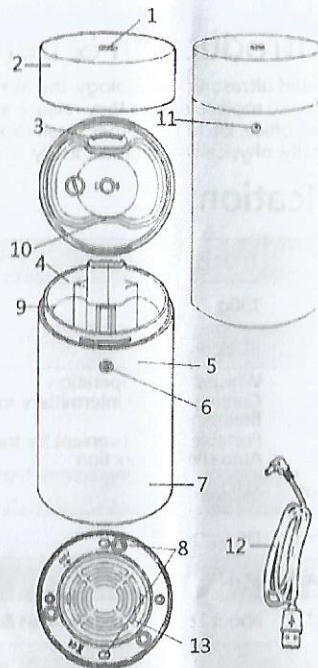

V-U55 USB Ultrasonic Aroma Diffuser

## Parts Diagram

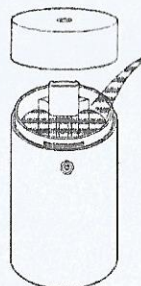

- 1 Mist Outlet
- 2 Cover
- 3 Air Outlet
- 4 Water Tank
- 5 Power Button
- 6 Light (LED Indicator)
- 7 Main Unit
- 8 Vent
- 9 Maximum Water Level Line
- 10 Ceramic Disc
- 11 Power Input
- 12 USB Cable
- 13 Fan

## Operating Instruction

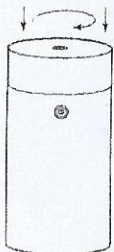

1. Twist and unlock the top cover

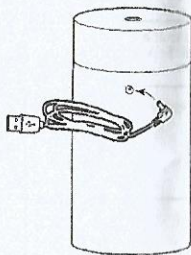

2. Add water to the max water level line

3. Add 3-5 drops of essential oils

4. Lock the cover

5. plug the unit into the power outlet/cigarette lighter or USB port and press the button to turn on the unit

6. To make air flow from bottom and sides of unit, the cup holder should have enough space around the unit

**7. First press: Power on (continuous mode)  
Second press: 9 seconds on and 9 seconds off (intermittent mode)  
Third press: power off**

Note: Working time and amount of water left in the tank after auto-shut off will vary due to climate, environment and other factors

## How to clean

We recommend that you clean the diffuser every time you change oils. Oils are corrosive, and over time, they build up on the ceramic parts. To ensure a long life for your diffuser, follow these simple care and maintenance instructions carefully:

• Only use clean water at room temperature to fill the water tank.  
• Rinse the water tank and wipe it dry with a cloth every time you use a different type of essential oil

• Use a damp cloth and add a few drops of rubbing alcohol to clean the exterior of the unit.  
• Use a cotton swab or brush and add a few drops of rubbing alcohol to clean the white ceramic disc.

• Keep water from entering the air outlet.

• Do not move once unit has been filled with water

• Do not use detergents, solvents or abrasive agents to clean the diffuser unit

• Disconnect the diffuser unit from power before cleaning

• Use the diffuser on a dry and even surface

## Cautions

Please read the instructions carefully before using. Manufacturer accepts no liability for damage caused by incorrect use.

⚠	1. Clean the unit when changing to a different oil.
⚠	2. Clean the unit by rinsing the water tank and wiping it dry with a clean cloth.
⊘	3. Do not use detergents solvents or abrasive agents to clean the diffuser unit.
⚠	4. Shut off and unplug the power before cleaning.
⚠	5. Use the original adapter provided by the manufacturer.
⚠	6. If you don't use the device for a long time, unplug and pour water out.
⊘	7. Never use steamed water or very cold water. Never use corrosive solvent to clean product.
⊘	8. Never touch water level sensor and avoid product hitting other objects.
⊘	9. Never put your hand above the ceramic disc when product is working, as this could cause pain and damage the machine.
⚠	10. Never wrap the adapter with a cloth or paper, etc. Otherwise, it cannot dissipate heat normally and may cause deformation and burn the membrane from a short circuit. Never touch the adapter with wet hands.
⊘	11. Do not use other liquids except for water & drops of essential or fragrance oil.
⊘	12. Do not aim the mist at walls, ceilings, or furniture surfaces as excess moisture could cause water damage.
⚠	13. Do not take this unit apart exposing electrical parts. Contact service for assistance and warranty information.
⚠	14. Never place on loose fabric that can block air flow and prevent the unit from misting and ventilating properly.
⚠	15. Please handle carefully as surface of unit is delicate.
⊘	16. Do not leave this unit in the car for extended periods of time under extreme weather conditions (below freezing/very high heat) as the water in the unit might freeze or the unit may overheat compromising the functionality of the unit.
⊘	17. Do not use any essential oil that are known to cause calming or sedative effect while operating a motor vehicle.
⊘	18. Do not tilt, move or attempt to empty or refill unit while in operation.

## Brief introduction & Benefits

With upgraded ultrasonic technology, the mixed essential oil and water are broken down into micro molecules and they release a fine mist to refresh & improve the air quality in car, office, kitchen or other small rooms. The fine mist can have a healing effect mentally, physically and emotionally

## Specifications

Size	71*71*140mm
NW	150g
Colour	Black or White
Features	Whisper-quiet Operation Continuous and intermittent mode setting Breathing light Portable and convenient for travel Auto shut off function
Rated power	5W max
Adapter power	DC 5V/1A
Water capacity	55ml
Mist output	about 18ml/h on continuous & 9 ml/h on intermittent
Accessories	1 USB cable, 1 User manual,
Coverage	about 100-200 sq ft

## Troubleshooting

SYMPTOM	CAUSE	SOLUTION
<b>No mist</b>	Using incorrect water, tap water with high mineral content	Use distilled or purified water
	Unit is out of water	
<b>No mist or Little mist</b>	Unit needs to be cleaned. Oils are clinging to ceramic disc or sensor	Clean unit as advised in instructions with clean water & clean ceramic disc/sensor with brush or swab
	Water level is higher than max level line	Clean unit and fill water 1/2 way to fill line and add additional water after getting mist Remove excess water and restart the diffuser
	USB cable may not be properly plugged in;	Ensure that the USB cable is properly plugged into the power source
	Car cup holders that are too small don't allow for air flow from the bottom of the unit.	Change to larger car cup holders
<b>Unit will not stop running even though empty</b>	Water level indicator is dirty	Clean unit as advised. Pay particular attention to swab the sensor/disc inside the bottom of the unit
<b>No misting and unit is spraying water</b>	Water is too cold	Change to warmer water
