Cashels Multi-Purpose Dropside Trailers have been developed to cater for general everyday haulage work. Built with quality and strength in mind, these trailers are designed for transportation of sand, gravel, topsoil, fertiliser, grain etc.

Features:

- 5mm plate steel deck
- Quick hitch stand
- Hydraulic open/close tailgate
- Spreader chain
- Swivel tow eye
- Brakes for safety
- Lights for safety and road work

Talking with Greg Yuretich on his 450 cow operation near Ahipara

"We brought a Cashels trailer off FarmShop and use it for shifting metal and bales... we are very impressed with the strength of the trailer and the chassis".

Greg Yuretich, Northland

Cashels Trailer Testimonial

Talking with Brad Allen on his 480ha operation at Pouto, Northland about his 8 Tonne Cashels Trailer

"We brought a Cashels trailer off FarmShop as we do a fair bit of work around the farm carting dirt, limestone, shifting kernel. We use the quick hitch a lot and the trailer is really well balanced under heavy loads. The brakes are an awesome safety feature on heavy loads and the single working ram is excellent. It's really easy to take the sides off for carting bales around as well" Brad Allen, Pouto.
