

# WHAT MAKES SAMASZ BETTER!

## SaMASZ Benefits **Best in class for Grass Harvest**

1. **Fastest tip speed** - 3200RPM = better, cleaner cut
2. **25mm thick 4 tooth engagement gears** - extra strength for rugged conditions
3. **Shot blast PLUS electrophoretic paint** - means every surface is evenly painted for longer life and less rust
4. **Quick change blades and modules** - keep mowing in the field = no downtime
5. **Guinness World Record** - for most grass cut in 8 hours
6. **Cutter bar full width of module** - module is protected in the field, resulting in less down time and damage
7. **Double action hydraulic breakaway with auto reset** - great for protection and prevents damage
8. **SaMASZ build their own cutter-bars** - end to end quality and refinement control (outsourcing slow to change)
9. **Longer blades 110mm** - better cut quality and no striping
10. **Box section frame** - superior strength no downtime no welding weaknesses
11. **300% cutter-bar protection on replaceable skid plates and wear plates** = longer life and smarter investment over more years = less \$/year
12. **360° blade spin** = self cleaning, no grass build up even in heavy crops
13. **Key-way breakaway on module**  
= key breaks before any gear damage  
= low fix cost...  
Key-way costs \$5 compared to \$500 to replace a complete module
14. **Direct genuine SaMASZ parts** - reduced maintenance cost
15. **Large parts inventory held in NZ** = no downtime
16. **Replaceable stone protection with convex shape to enhance grass flow** = no catching or grass build up on the cutter bar
17. **2 year SaMASZ warranty**
18. **Front mower is open** - giving best in class visibility in operation
19. **KDF Front Mower** - has 4 way travel, best in class, movement and contour following

## THE 5 STAGE 'SUPERIOR' PAINT SYSTEM

- 1 Shot Blast:** All surfaces are shot blast before painting
- 2 Anti-corrosive:** Anti-corrosive undercoat
- 3 Electrophonic Paint:** Paint and steel have an opposite charge, meaning paint is perfectly and evenly attracted to and adheres to all surfaces evenly.
- 4 Two coats:** x 2 Electrophonic top coats for top finish
- 5 Curing System:** Heat and air paint curing system
