Extra Strength Extra Healthy

US Clinicals® Extra Strength Omega-3 Fish Oil is a highly purified and concentrated fish oil naturally sourced from the finest Deep Sea Alaska Tuna Fish, rich in EPA and DHA. Medical research shows that both EPA and DHA are important for a healthy brain, heart, and visual function as well as in aiding other parts of our body to operate optimally. Every batch of US Clinicals® Extra Strength Omega-3 Fish Oil undergoes stringent testing against mercury.

- Regular**
30% of EPA & DHA
- Extra Strength**
60% of EPA & DHA

Concentration Levels

Regular Fish Oil contains 30% EPA and DHA, while Extra Strength Fish Oil has 60% EPA and DHA. The Extra Strength version offers a higher concentration of these essential omega-3, making it a more potent choice for specific health needs.

Made in USA.

Formulated in USA.

FAQ

What is the difference between Extra Strength Omega-3 & the normal Omega-3?

Extra Strength Omega-3 Fish Oil only contains a 60% concentration of EPA & DHA whereas the normal Omega-3 only contains 30% of EPA & DHA in a 1,000mg capsule.

Will the long-term consumption of Extra Strength Omega-3 Fish Oil result in any side effects?

No known side effect has been observed. All ingredients in Extra Strength Omega-3 Fish Oil are tested and approved to ensure safety, purity, and efficacy. It is therefore safe for long-term consumption.

Can I take Extra Strength Omega-3 Fish Oil with my prescribed medicine?

Extra Strength Omega-3 Fish Oil is a supplement formulated to provide important nutrients that are not always easy to obtain in sufficient amounts from the diet. However, we recommend you consult your health care practitioner concerning drug interactions if you are taking any medication.
