12 Natural Herbs Ingredients

Angelica Sinensis (Dong Quai Root)
Also known as the "female ginseng", it is an excellent blood tonic that can help to preserve one's natural beauty due to its amazing vitamin and mineral content. It has a calming effect on one's nervous system and is effective in reducing anxiety, combating stress as well as reducing the severity of mood swings. Studies also shows that it can help to promote women's youthfulness by inhibiting the formation of melanin.

Black Cohosh Root
Black Cohosh Root has anti-osteoporotic effects which can help to prevent bone loss associated with osteoporosis conditions, stimulate the synthesis of estrogen as well as relieve menopause symptoms and menstrual discomfort.

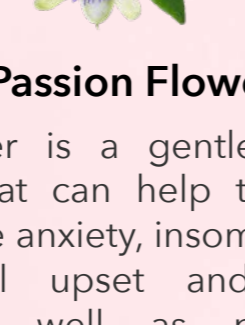

Serenoa Repens (Saw Palmetto)
Serenoa Repens is one of the most widely used herbal preparations for the treatment of lower urinary tract symptoms. It can also help to regulate the menstrual cycle by equalizing hormone levels in the blood, ease cramps and relieve hormonal imbalance and menopause symptoms.

Blessed Thistle
Blessed Thistle has an astringent effect which can help to shrink and tighten the top layers of skin or mucous membranes, thereby improving tissue firmness. It is also a remedy for women, which can help to alleviate symptoms of menopause, premenstrual syndrome (PMS) such as mood swings, tender breasts, fatigue, headaches and cramps.

Licorice Root
Licorice Root contains anti-oxidant and anti-depressant properties that is useful for hormonal problems such as exhaustion, mood swings and hot flashes in women who are going through menopause. It also has anti-inflammatory properties that can help with PMS symptoms such as breast tenderness, menstrual cramps and mood swings.

Passion Flower
Passion Flower is a gentle sedative and tranquilizer that can help to relax muscle tension, relieve anxiety, insomnia, headaches, gastrointestinal upset and stress-related disorders as well as promote good complexion.

Wild Yam Root
Wild Yam Root has a natural source of estrogen which can help to relieve stress, menopause and premenstrual symptoms such as menstrual cramps, premenstrual syndrome (PMS) and vaginal dryness. Studies also shows that it can help to maintain healthy cholesterol levels and formation of bones, especially in older women.

Red Raspberry Leaf
Red Raspberry Leaf contains strong antioxidant properties and are traditionally used to boost the immune system, relieve menopause and premenstrual symptoms as well as strengthen the wall of the uterus and the entire female reproductive tract.

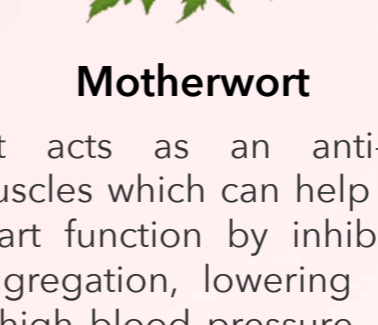

False Unicorn
False Unicorn serves as a herbal remedy for ailments such as hormonal imbalance, painful menstruation, menopausal symptoms, urinary infections and irritability. Studies show that it can help to balance the hormones and estrogen level in our body, which are very important in women's health.

Wild Damiana Leaf
Wild Damiana Leaf serves as a mild mood enhancer that can help to alleviate stress, anxiety, and mild depression in women. Studies also shows that it can help to relieve digestion problem, treatment of urinary health, menopause symptoms and menstrual discomforts.

Cramp Bark
Cramp Bark has antispasmodics properties that can help to relax muscles as well as relieve painful menstrual cramps. It is also considered as a uterine decongestant to fight problems such as bloating and delayed menses. It can help to maintain a healthy blood pressure and gastrointestinal system.

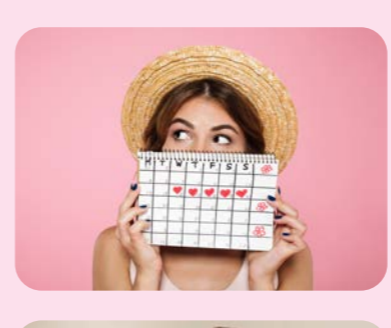

Motherwort
Motherwort acts as an anti-spasmodic, relaxing muscles which can help to maintain healthy heart function by inhibiting blood platelet aggregation, lowering blood lipid levels and high blood pressure. It is also an excellent tonic for the uterus and reproductive organs. Studies shows that it can help to promote hormonal balance and restore emotional balance.
