Weight Loss Probiotics

StrongBiotics™ for Slimming is a holistic formula designed to support metabolism of fat and promote healthy weight management. It contains BioSculptor™ probiotics complex consisting of 8 well-established probiotic strains that have been shown to **reduce body weight, waist circumference and the risk of metabolic syndrome**. Each capsule contains 10 billion CFU of BioSculptor™ probiotics. Besides, with the addition of Fibersol®-2 (water-soluble dietary fiber), it further regulates bowel movements.

Metabolic syndrome, also known as syndrome X, is a recurrent condition in which multiple metabolic abnormalities like the following may be present in a person:

Diabetes or impaired glucose tolerance

High levels of fats in blood

Increased blood pressure

Excess body fat around the abdomen area

	You are consider to have metabolic syndrome if you have any 3 or more of the following:	
	Men	Women
Triglyceride Level	≥1.7mmol/l	≥1.7mmol/l
HDL Cholesterol	≤1.0mmol/l	≤1.3mmol/l
Blood Pressure	≥130/85mmHg	≥130/85mmHg
Fasting Glucose Level	≥6.1mmol/l	≥6.1mmol/l
Waist circumference	>90cm	>80cm

Abdominal obesity (also known as central obesity) often refers to the accumulation of body fat in the abdomen area, which increases the abdominal visceral fat - an apple-shaped figure.

StrongBiotics™ for Slimming, Natural Belly Fat Burner

Biosculptor™ Slimming Probiotics is a patented raw material that is developed by Hi-Beau Group, the first Singapore company to invent and research to aid in reducing abdominal obesity and risks of metabolic syndrome. Making a breakthrough in its key industrialization technology, the patent possesses good in-vitro probiotic properties that show efficacy and stability.

Ingredients

BioSculptor™ Probiotics Complex

Scientifically proven to:

- 1 Reduce bodyweight, belly fat, fasting blood sugar, triglycerides, cholesterol
- 2 Reduce abdominal obesity
- 3 Reduce the risk of non-alcoholic fatty liver
- 4 Prevent the risk of metabolic syndrome caused by a high-fat diet

Fibersol®-2

Helps to increase stool frequency and fecal volume, increase the number of beneficial bacteria, reduce gas production in intestine and attenuates serum triglyceride / visceral levels
