Men's Natural Prostate Support

StrongProstate™ Herbal Prostate Care is a scientifically designed formula that combines a proprietary blend of 6 well-researched herbs with nutrients essential for a healthy and well-functioning prostate. Together, they help to improve and optimize overall prostate health and help to maintain a healthy urinary system.

Common Symptoms of Enlarged Prostate (BPH)

Normal Prostate

Enlarged Prostate

Frequent urination
especially at night

Leaking or dribbling
urine

Traces of blood in
urine

Ingredients

Saw Palmetto Extract

Saw Palmetto Extract helps to promote prostate health. It also improves urine flow by reducing the levels of Dihydrotestosterone (DHT) and enzyme 5-alpha reductase.

Pumpkin Seed Extract

Pumpkin Seed Extract aids in common urinary problems, such as frequent urination. Scientific studies indicate that the combination of Pumpkin Seed with Palmetto is beneficial in supporting prostate health.

Curcuma Longa Extract

Curcuma Longa Extract is known for its powerful antioxidant properties. It protects the body from free radicals and promotes healthy prostate function.

Cat's Claw Extract

Cat's Claw Extract has positive effects on the genitourinary tract, and the result is especially remarkable on the prostate. The beta-sitosterol content in Cat's Claw helps to support prostate and urinary health by decreasing the amount of DHT in the body.

Flower Pollen Extract

Flower Pollen Extract contains a rich mix of amino acids, vitamins, and minerals that work on the relaxation of the smooth muscle tone of the urethra and thereby improving the urinary stream.

Ageratum Conyzoides Extract

A. conyzoides exhibits muscle relaxation properties, which can help relieve tension in the muscles surrounding the prostate and the urethra. It supports smoother urine flow, reduces urinary symptoms, and decreases urinary frequency.

Zinc Gluconate

Zinc Gluconate is an essential trace mineral that promotes immunity and prostate health. It inhibits the activity of 5-alpha-reductase, an enzyme that converts testosterone to DHT.

Supplement Facts

	Amount Per Serving	Capsules Per Container: 40
		% Daily Value

FAQ

How soon will I be able to observe improvements in my prostate health?

You may notice an improvement in prostate problems such as frequent urination, weak urinary stream, urine leak, painful urination, etc. in a week. However, results may vary for each individual. You are advised to take StrongProstate™ consecutively for at least 1-2 months to achieve the best results.

Will the long term consumption of StrongProstate™ result in any side effects?

No known side effect has been observed. StrongProstate™ does not contain hormone and all ingredients are tested and approved to ensure safety, purity and efficacy. It is therefore safe for long term consumption with the recommended dosage.

Can I take StrongProstate™ even if I don't have any prostate problems?

Yes. Men above 40 years old are encouraged to start taking StrongProstate™. The likelihood of developing an enlarged prostate increases as they age. StrongProstate™ helps to support overall prostate health and helps to maintain a healthy urinary system.

Should I separate my consumption of StrongProstate™ from other medications or caffeine beverages?

Yes, because the acidity in medications and caffeine beverages may reduce the efficacy of StrongProstate™. It is advisable to take StrongProstate™ and your medications /caffeine beverages at an interval of 1-2 hours apart.
