

Trust The Timing of Your Life

StrongFertile™ Natural Fertility Formula is a hormone-free formula that has been scientifically tested to promote overall male reproductive health. In addition to common ingredients in reproduction care such as Zinc and Selenium, StrongFertile™ is boosted with FertileMax™, a proprietary blend supporting healthy sperm motility and volume. The unique blend of herbs in StrongFertile™ also help to support sexual function by maintaining healthy testosterone levels.

Ingredients

FertileMax™ Proprietary Blend

Tribulus Terrestris Extract

A small, creeping plant that is native to Mediterranean, Asia and India. It was found to increase the production of **luteinizing hormone (LH)**, which in turn leads to an increase in **testosterone levels**. Ca2+ present in Tribulus terrestris extract could inhibit the enzyme phosphate diesterase, which enhances the sperm motility. Possess antioxidant effect that help to protect sperm from free radicals.

Fenugreek Seed Extract

A herb similar to clover and their seed taste like maple syrup. The active agent in fenugreek are furostanol saponins, which are claimed to promote healthy testosterone levels in human by 2 ways:

1. Triggering the release of **luteinizing hormone (LH)**
2. Stimulating adrenal gland to secrete **dehydroepiandrosterone (DHEA)**, which then converted to **testosterone**

Shilajit

A sticky substance found in the rocks of Himalayan. It helps in increasing the testosterone level and maintain a better overall mood and thinking. Besides, shilajit helps to protect against oxidative stress and stimulate spermatogenesis.

Maritime Pine Bark Extract

The primary bioactive compounds called procyanidins. This extract shows a strong antioxidant capacity and anti-inflammatory properties.

Vitamin B9 (Folic Acid)

Folate levels is associated with sperm count and health (one study found that low folate levels in semen is associated with poor sperm DNA stability)

Zinc

Zinc considered one of the most important minerals for male fertility. When seminal zinc level increases, it significantly increases sperm concentration, motility, and morphology.

Selenium

Selenium helps in maintaining the shape of the sperm mitochondria as well as protecting sperms (made of essential fatty acids) from oxidize. Selenium deficiency always linked to low sperm count, poor motility and odd morphology, in turn causing male infertility.

Supplement Facts

Serving Size: 2 Capsules

Servings Per Container: 30

	Amount Per Serving	% Daily Value
FertileMax™ Proprietary Blend (Tribulus Terrestris Extract, Fenugreek Seed Extract, Shilajit)	530 mg	*
Maritime Pine Bark Extract (75% procyanidins)	100 mg	*
Zinc	5 mg	45%
Vitamin B9 (Folic acid)	500 mcg	125%
Selenium	200 mg	363%

*Daily Value not established

How Does It Work?

Supports Healthy Sexual Function

Supports Healthy Male Fertility

Improves Sperm Motility, Count and Quality

Maintains Healthy Testosterone Levels

How are We Different from Others?

Other Reproductive Care Supplements

StrongFertile™ Natural Fertility Formula

Source	Simple/Few plant-derived ingredients.	100% Natural and Safe, Hormone-free formula with FertileMax™ Proprietary Blend, Herbs, Vitamins & Minerals.
Properties	May contain animal source.	Plant-based formula, stomach & digestion friendly.
Capsule	Hard tablet or gelatin capsules that may contain sodium lauryl sulphate.	100% plant cellulose vegetarian capsules.
Result	Unknown.	Scientifically Tested.

Instructions

Directions of Use:

For adults. Take 2 capsules daily. Consume after meals.

Storage:

Store in a cool and dry place. Once protection seal is opened, keep refrigerated and best consumed within 2 months. Keep out of reach of children.

Precaution:

If you are taking medication or have a medical condition, you should consult your health care specialist prior to using this product.
