## Immunity for the win Shield up with US Clinicals® StrongImmune Lactoferrin™

US Clinicals® StrongImmune™ Lactoferrin contains dual forms of lactoferrin that provide the double effect. Each capsule contains 250mg of freeze-dried Lactoferrin, which is scientifically proven to boost the effects on our immune function. Patented Biosculptor® Probiotics is added as an aid to heighten immune response and promote a healthy digestive tract.

### Product Features

- High Purity Lactoferrin from New Zealand
- Grass Fed Bovine Milk
- Singapore Patented Biosculptor™ Probiotics
- Freeze-Dry Technology
- High Quality

### What is Lactoferrin?

A protein naturally present in human and cow's milk, as well as other bodily fluids such as saliva, tears, mucus, and bile.

The rate of protein synthesis declines with age. Hence, lactoferrin supplementation is needed to help heighten immune response.

Bovine lactoferrin derived from cow's milk has similar structure as human lactoferrin which exhibits immune functions. The role of lactoferrin in the immune response is well researched.

### Colostrum "The First Milk"

Colostrum is the first milk produced after a baby is born. It contains about 7x more lactoferrin than is found in milk produced later on.

### Purity at It's Best

## Our Safety Promises

- ✓ **20** Clinical Studies Support
- ✓ **GRAS** Generally Recognized as Safe
- ✓ **efsa** Dietary Supplement  
Approved by European Food Safety Authority
- ✓ **FDA** GRAS APPROVED  
Approved by U.S. Food and Drug Administration
- ✓ **HSA**  
Classified as Health Supplement

### As Featured In

### Additional Immune-boosting Ingredient

#### Biosculptor® Probiotics

The patented Biosculptor® Probiotics contains 8 well-established probiotic strains (Bifidobacterium lactis, Bifidobacterium longum, Lactobacillus acidophilus, Lactobacillus casei, Lactobacillus gasseri, Lactobacillus paracasei, Lactobacillus plantarum, Lactobacillus rhamnosus). Studies have shown that it is effective in promoting bowel regularity and suppressing bacterial infections in the digestive system, which in turn helps to increase immunity.

### Benefits

### Consume at Your Convenience

US Clinicals® StrongImmune™ Lactoferrin is meant to be consumed daily for protection. It is also meant to be consumed prior to traveling or attending social gatherings and interactions.

## Instructions

**Directions of Use:**  
For adults. Take 1 capsule daily.  
For children below 12 years old, take half capsule daily.  
You may open the capsule and mix with food or drinks.

**Storage:**  
Store in a cool and dry place. Keep out of reach of children.

**Precaution:**  
If you are nursing or pregnant, taking medication, or have a medical condition, you should consult your health care specialist prior to using this product.

> Made in Singapore.

### FAQ

#### How soon will I be able to see improvements in my immune health?

While results may vary among individuals, most could expect to see beneficial effects such as falling ill less often. You are advised to take StrongImmune Lactoferrin™ consecutively for 3-6 months to achieve the best results.

#### Will the long-term consumption of StrongImmune Lactoferrin™ result in any side effects?

No known side effect has been observed. All ingredients in StrongImmune Lactoferrin™ are tested and approved to ensure safety, purity, and efficacy. It is therefore safe for long-term consumption at the recommended dosage.

#### Should I separate my consumption of StrongImmune Lactoferrin™ from other medications or caffeine beverages?

Yes, because the acidity in medications and caffeine beverages may affect the efficacy of StrongImmune Lactoferrin™. You are advised to take StrongImmune Lactoferrin™ and your medications / caffeine beverages at an interval of 1-2 hours apart.
