Breakthrough ingredient

### A Breakthrough Ingredient in Uric Acid Care Research - Uricid-Buster™

Korean researcher's discovery maintaining healthy uric acid levels with the golden ratio of **kiku flower extract** and **cinnamon bark extract**.

### Ingredients

**Uricid-Buster™**  
(Kiku Flower Extract, Cinnamon Bark Extract & Ginger Extract)  
Numerous studies have confirmed the synergistic effects of Kiku flower extract and Cinnamon bark extract. The golden ratio of Kiku flower and cinnamon bark has the ability to promote renal uric acid excretion, which may have an effect on supporting healthy uric acid levels. Ginger extract contains gingerols which may help to balance uric acid levels. Besides, it also helps to improve joint flexibility and mobility.

**Celery Seed Extract**  
Celery seed has been used in Eastern medicine for thousands of years. It has good effect of balancing healthy uric acid levels associated with antioxidant effect which may due to the presence of phenolic compounds and phytosterols.

**Boswellia Serrate Extract**  
Boswellia supports stronger and more flexible mobility. It has been widely used for the maintenance of healthy joints.

**Tart Cherry Extract**  
Tart cherry extract is rich in anthocyanin and polyphenols, it helps to support uric acid production staying within a healthy range while flushing away excess acid. It also aids in the promotion of healthy joints by preventing the build-up of acid in the body produced by high-purine foods.

**Chanca Piedra Extract**  
Chanca Piedra also known as "stonebreaker", is a traditional natural remedy for kidney stones. It helps to promote healthy kidneys function and support urinary health.

**Piperine Extract**  
Piperine extract helps to increase the bio-availability and absorption of Boswellia Serrate and other nutrients.
