Don't walk away from your beautiful legs

For Healthy Circulation & Youthful Legs!

VaricoClear™ Ultimate Vein Support is a holistic formula designed to promote vein health. It contains VeinGuard™ Multi-Flavonoid, which is scientifically tested to support healthy vein structure and integrity. Flavonoids help with maintaining the elasticity of blood vessels and strengthening the walls of blood vessels, aid in the circulation of blood to reduce the accumulation of blood in problem areas. VaricoClear™ further promotes healthy blood circulation with the addition of Canipure® Tartrate and L-Arginine.

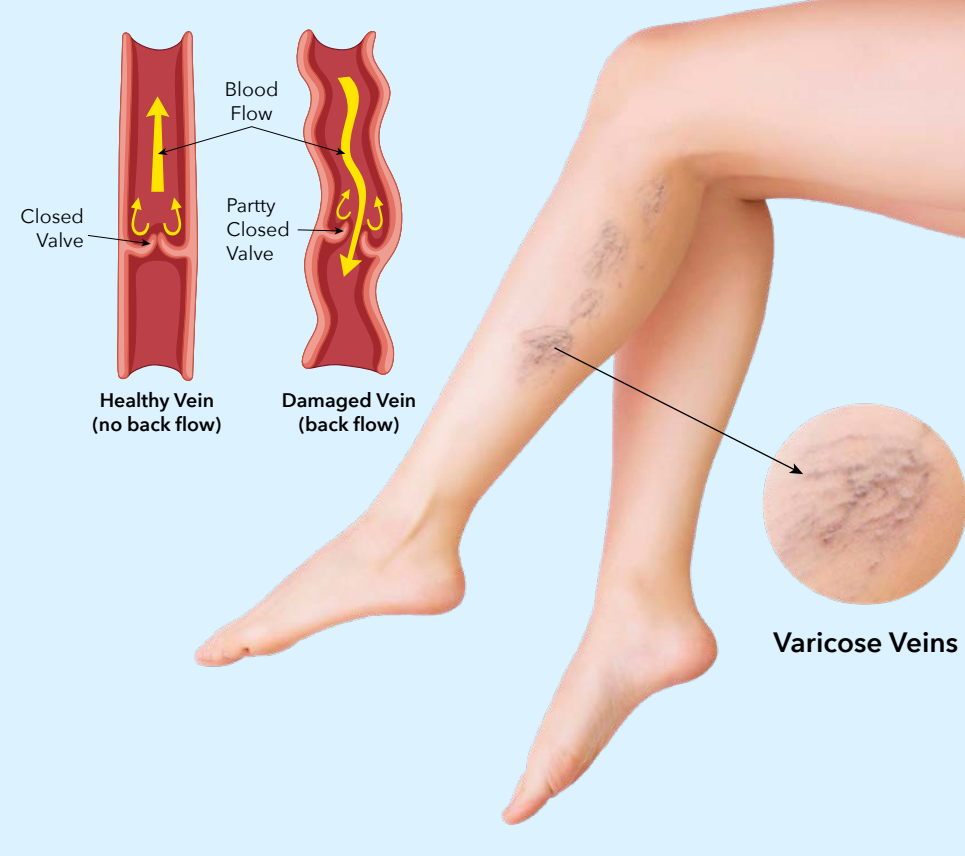

Leg Veins

When humans are in the upright position, the blood in their leg veins must go against gravity to return to our heart. To accomplish this, leg muscles squeeze the deep veins of their legs and feet to help move blood back to our heart. One-way flaps, called valves, in the veins keep blood flowing in the right direction. When the leg muscles relax, the valves inside the veins close. This prevents blood from flowing in reverse, back down the legs. The entire process of sending blood back to the heart is called the venous pump.

When humans walk and the leg muscles squeeze, the venous pump works well. However, sitting or standing for a long time can stretch vein walls because they are flexible. Over time, in susceptible individuals, this can weaken the walls of the veins and damage the vein valves - Varicose Veins.

What are Varicose Veins?

Symptoms of varicose veins include enlargement, twisting, and swelling of the veins. It is common to find them on the backs of the calves, knees, and thighs. Varicose veins are caused by malfunctioning valves in your veins. As a result, blood collects in your legs' veins and increases pressure. Due to increased pressure, your veins stretch, swell, and twist.

Risk Factors for Varicose Veins

- Obesity** - being overweight puts added pressure on veins.
- Sex** - women are more likely to develop the condition due to hormonal changes, female hormones tend to relax vein walls.
- Older age** - aging causes wear and tear on the valves in the veins.
- Pregnancy** - during pregnancy, the blood volume in the body increases. This change supports the growing baby but will also enlarge the veins in the legs.
- Standing/sitting for long periods of time** - movement helps blood flow.

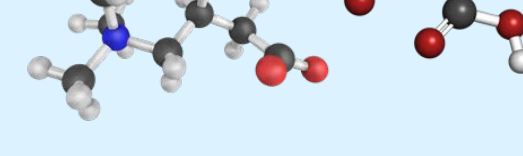

Ingredients

VeinGuard™ Multi-Flavonoid (Hesperidin & Diosmin)
Hesperidin and diosmin are flavonoids that has vasoprotective properties. Microcirculation is strengthened by maintaining the elasticity of blood vessels and strengthening the walls of blood vessels.

Canipure® Tartrate
Canipure® Tartrate is the combination of L-Carnitine & L-Tartrate. L-carnitine L-tartrate increases fatty acid oxidation and reduces purine catabolism and free radical formation, which may muscle weakness.

L-Arginine
L-Arginine is the body's main source of nutrients for producing nitric oxide (NO), which helps to relax the blood vessels and improve blood flow.

Supplement Facts

	Serving Size: 2 Capsules		Servings Per Container: 30	
	Amount Per Serving		% Daily Value	
VeinGuard™ Multi-Flavonoid (Hesperidin & Diosmin)	400 mg		*	
Canipure® Tartrate (L-Carnitine & L-Tartrate)	300 mg		*	
L-Arginine	300 mg		*	

*Daily Value not established

How Does It Work?

Supports healthy vein structure

Maintain elasticity of vein

Promotes healthy blood circulation

Promotes healthy cardiovascular system

How are We Different from Others?

	Other Vein Supplements	VaricoClear™ Ultimate Vein Support
Source	Simple/Few plant-derived ingredients.	100% Natural and Safe, Contains scientifically researched breakthrough ingredients - VeinGuard™ Multi-Flavonoid with Canipure® Tartrate and L-Arginine.
Capsule	Hard tablet or gelatin capsules that may contain sodium lauryl sulphate.	100% plant cellulose vegetarian capsules.
Result	Unknown.	Scientifically Tested.

Instructions

Directions of Use:
For adults, Take 2 capsules daily. Consume after meals.

Storage:
Store in a cool and dry place. Best protection seal is opened, keep refrigerated (best consumed within 2 months). Keep out of reach of children.

Precaution:
If you are nursing or pregnant, taking medication or have a medical condition, you should consult your health care specialist prior to using this product.

Formulated in USA. Made in Singapore.

FAQ

How soon will I be able to see results?

Results vary among individuals. You are suggested to take VaricoClear™ consecutively for 3-6 months to achieve best results.

Will the long-term consumption of VaricoClear™ result in any side effects

No known side effect has been observed. All ingredients in VaricoClear™ are tested and approved to ensure safety, purity, and efficacy. It is therefore safe for long-term consumption at the recommended dosage.

Should I separate my consumption of VaricoClear™ from other medications or caffeine beverages?

Yes, because the acidity in medications and caffeine beverages may affect the efficacy of VaricoClear™. You are advised to take VaricoClear™ and your medications / caffeine beverages at an interval of 1-2 hours apart.
