

THE HC1 BREEZE ULTRALIGHT & AFFORDABLE

Happier
Camper

STARTING AT
\$24,950

FEATURES & HIGHLIGHTS

The HC1 Breeze is the latest member of the Happier Camper family. This model is designed & handcrafted thoughtfully to be lighter, simpler and affordable. This trailer shares the core DNA of the flagship HC1, such as the Adaptiv® modular interior, double-hull fiberglass shell, and iconic rear hatch.

- Built to last for generations to come
- Towable by most cars and fits in a single parking spot
- Lightest and most aerodynamic HC1 yet
- Maximum breeze with the sliding windows & rear hatch door
- Modular interior system – never static, reconfigure on the fly
- Compact yet sleeps up to 5 with the bunk bed or megabed
- Enjoy kitchenette and toilet upgrades
- Available in two colors: Mammoth White or Venice Breeze
- Limited customization options available

TECHNICAL SPECIFICATIONS & FLOORPLAN

RIGID FRAME W/ TORSION AXLE & GWR OF 3500 LBS.

The modular floor of the HC1 is made of 1.5" thick honeycomb fiberglass. It's strong yet incredibly light.

Grooves are embedded in the floor to hold the *Adaptiv*® cube components in place — just like *Lego*®.

Table legs easily attach to the floor and are uniquely placed for maximum convenience.
