EPSON

LOW-COST MONO PRINTS WITH HIGH PRODUCTIVITY.

Affordable and productive, the M1050 and M2050 mono ink tank printers allow you to print effortlessly over Wi-Fi and Ethernet. The printers' rear feeding and ADF* support a wide range of media sizes, which helps increase productivity in your office. Enjoy low printing costs and high yields with DURAbrite ET Pigment Ink that produces sharp and water resistant printouts. Ink bottles with designated nozzles and a big ink tank capacity also reduce refill frequency and support high volume printing. With in-built PrecisionCore Heat-Free Technology, these new models are robust and resource-saving. The M1050 and M2050 are also made with the environment in mind, utilising recycled plastic in the construction of each main unit, and include a replaceable maintenance box. Get yours with peace of mind, with our 4 year warranty.

Epson Replaceaux Smart Panel Maintenance Box

Low Cost, High Productivity

Print more, at up to 18.0 ipm, and enjoy greater savings with low running costs and an ultra-high page yield of up to 6,000 pages.

Ease of Use

Minimise repair downtime with the replaceable maintenance box. Set up the Epson Smart Panel on your mobile device for effortless printing, copying, scanning, troubleshooting and Wi-Fi/AirPrint* access.

Sustainability in Mind

Reduce power consumption with our Heat-Free technology, and minimise your carbon footprint with hardware made from up to 20% recycled plastic**, 64% less consumable parts compared to ink cartridge models and packaging that's made with over 80% recycled cardboard.

Available only on M2050. Limited to 005 high capacity ink bottles.

Ratio of recycled plastic weight to collective plastic component weight of hardware. The ratio of recycled plastic used is subject to change depending on the availability of raw materials (Applicable to M2050/M1050 series).

Disclaimer for 64% less consumables vs IC model: Material weight comparison of consumables (Including packaging) between Epson ink cartridges of the PX-S155/WF-M1138 series and Epson ink bottles of the M2050/M1050 series (Excluding weight of ink).

*1 Print speed (Pages Per Minute) is calculated when printed on A4 plain paper in the fastest mode. Print speed may vary depending on system configuration, print mode, document complexity, software, type of paper used and connectivity. Print speed does not include processing time on host computer.

#1 Black Text

- *2 Default mode in accordance with ISO7779.
- 2 Octavit into an accordance with ISOFF13.
 3 Quoted yields are extrapolated based on Epson original methodology from the print simulation of Test Patterns provided in ISO/IEC 19752. Quoted yields are NOT based on ISO/IEC 22505. Quoted yields may vary depending on the images that you are printing, the paper type that you are using, the frequency of your prints and environmental conditions such as temperature. During the initial printer setup, a certain amount of ink is used to fill the print head's nozzles, therefore the yield of the initial bundled set can be lower.
